Poincare's Troops, Pressing Forward, Are Within One Mile of the Important German Base.

950 Teutons Are Captured.

Kaiser's Troops Attack at Five Points in the Vosges, But Are Turned Back By French.

(Associated Press Cable)  
Paris, July 10.—The French have advanced their line south of the Somme a mile and a half, capturing the German third position along a length of three and one half miles, and are now within a mile of Peronne.

French critics believe that the capture of Peronne is now a question almost of hours.

A new attack was launched in the Champagne by the French last night. The War Office today announces the capture of a number of trenches.

On the Somme front, the French took a line of German positions in the neighborhood of Barleux. In this sector, 950 Germans were captured last night.

The Germans made attacks at five points simultaneously in the Vosges, but all their assaults were checked by the French machine gun fire.

### BRITISH ADVANCE

(Associated Press Cable)  
London, July 10. — British troops have made a new advance northwest of Contalmaison, in the field of their offensive north of the Somme, it was officially announced today.

Several hundred prisoners and three guns were captured.

### HOSPITAL SHIPS SUNK

(Associated Press Cable)  
Petrograd, via London, July 10.—The Russian hospital ship Vperiode, the sinking of which in the Black Sea with the loss of seven lives was officially reported last night, was proceeding without escort from Batumi to Embark wounded soldiers. The Vperiode was of 858 tons and was carrying 120 wounded soldiers. The official Russian statement says the Vperiode was sunk by "an enemy submarine without warning."

### BARLEUX RETAKEN BY KAISER'S MEN

(By Associated Press)

Berlin, July 10.—The recapture of the village of Barleux by German troops was announced by the War Office today in its report on operations along the western front.

### WHAT NEXT?

South American Nations in Row Over Land Tracts.

By Associated Press Dispatch.  
Washington, July 10. — Official dispatches received today in Latin-American diplomatic quarters say a secret agreement has been made between Peru and Venezuela with the object of taking vast tracts of land rightful possession of which they dispute with Colombia and Ecuador. Grave fears for the peace of the nations involved were expressed.

### ORPET TRIAL DRAGS ALONG

By Associated Press Dispatch.  
Waukegan, Ill., July 10.—Eugene Runyard, who heretofore has played a silent part in the prosecution of Will H. Orpet, charged with the murder of Marian Lambert, became the center of interest in Judge Donnelly's court today, when he made the opening argument for the state.

He accused Orpet of being a sullen and vain youth without character.

He said the motives for the crime were clear, and that Marian Lambert had shown by her actions that her sole desire was to live.

The remainder of his address was a bitter tirade against the accused.

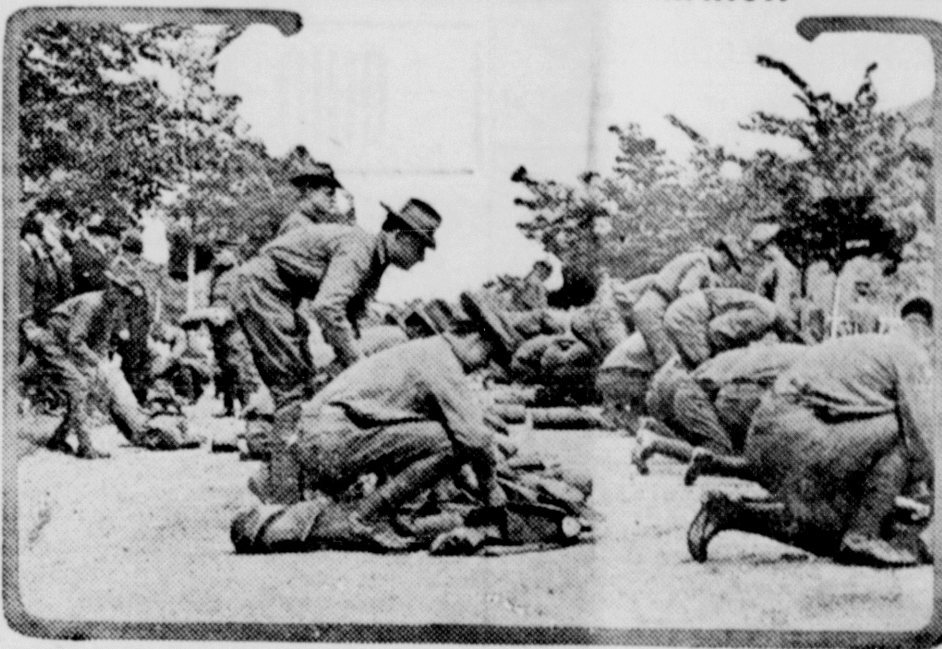

### FAILED!

By Associated Press Dispatch.

New York, July 10. — Rain and cooler weather failed today to materially check the epidemic of infantile paralysis, which, since its inception two weeks ago, has claimed 238 lives in New York City.

During the last 24 hours, 14 deaths and 103 new cases were reported.

## OUR VISITOR GERMAN "U"

Officials Believe That the Vessel Being Unarmed, Will Simplify the Problem of How to Deal With Strange Guest.

French and English Embassies Puzzled Over Proposal to Take on Cargo of Rubber and Nickel

Announced That Big Sub Boat Is First of Commerce Carrying Fleet.

By Associated Press Dispatch.  
BALTIMORE, JULY 10.—UPON DELIVERING HIS SHIP'S PAPERS TO THE OFFICE OF THE NORTH GERMAN LLOYD LINE TODAY, CAPTAIN PAUL KONIG OF THE SUBMARINE MERCHANTMAN DEUTSCHLAND ISSUED A FORMAL STATEMENT, DECLARING THAT HIS VOYAGE ACROSS THE ATLANTIC HAD BROKEN ENGLAND'S RULE OF THE SEAS.

At the same time, the Captain disposed finally of the report that he carried a message from Emperor William to President Wilson, saying there was no foundation for the story.

Captain Konig said: "The submarine Deutschland, which I have the honor to command, is the first of several submarines built to the order of the Deutsche-

Ocean-Rhederer, of Bremen. She will be followed by the Bremen submarine shortly.

"The idea of building this submarine emanated from Albert Lohmann, president of the Bremen Chamber of Commerce.

"He brought his idea in the fall of last year confidentially before a small circle of friends, and the idea was taken up at once. A company was formed under the name Deutsche-Ozean-Rhederer and the vessel was built at Kiel.

"The Board of Directors is composed of Mr. Lohmann; Phillip Heineken, General Manager of the North-German Lloyd, and the Manager of the Deutsche Bank of Bremen."

### PROBLEM PRESENTED

By Associated Press Dispatch.  
Washington, July 10.—The fact that boarding officers found the German merchant submarine Deutschland wholly unarmed goes far toward simplifying any question as to her status as a merchant ship in American waters.

Officials realize that the British and French Embassies, while little interested in what the Deutschland has brought over, are concerned over the cargo of rubber and nickel she proposes to carry back to Germany and expect that nothing will be left undone by Germany's enemies to prevent or hinder her clearance.

The British and French Embassies today officially called the State Department's attention to the arrival of the Deutschland and asked that this government assure itself of the vessel's character.

This will be done, it was announced, by the assignment of naval experts to assist the Treasury Department.

### ONE OF FLEET

By Associated Press Dispatch.  
Baltimore, July 10.—Definite an-

nouncement that the great German submarine merchantman Deutschland, which arrived at Chesapeake Bay yesterday, is the first of a fleet of such craft to ply regularly in the trans-Atlantic trade, was made here early today by Captain Paul Konig, master of the super-submarine.

The gigantic submarine ended her voyage across the Atlantic at 6:40 this morning, when she docked at the pier of the Eastern Forwarding Company, on the outskirts of Baltimore.

The submarine left quarantine at 5:30, after health officers had boarded the craft and given permission to proceed.

Shortly after 4 o'clock, when daylight was beginning to show, a boat with health and custom officials aboard put out from quarantine and went alongside the submarine.

To the municipal health officer, Dr. Thomas L. Richardson, the skipper presented his bill of health, issued to him by William T. Fee, United States Consul at Bremen, on June 14.

The document described the Deutschland as "a vessel engaged in the freight trade between Bremen and Boston, or other eastern Atlantic ports."

It records her gross tonnage as 791; says she is "newly built," has a cargo of dyestuffs in good condition and "a wholesome supply of water from Bremen works."

One thing the boarding officers noticed particularly: There were no torpedo tubes or guns of any description visible aboard the vessel.

They had been told that she mounted two small calibre rifles for defense, but came ashore convinced that the visitor was wholly unarmed.

It was learned that the boat left Bremen with her load of 750 tons of dyestuffs, valued at 1,000,000, which her owners have arranged to sell with five firms in New York City.

At Helgoland she waited nine days, leaving there June 23, to plunge deep beneath the surface of the North Sea to escape the watchful eyes of the Allied blockaders.

Once outside the blockading lines and into the Atlantic, according to the captain, he headed straight across and only deviated from his course once when he saw what he thought was an enemy warcraft.

Most of the time he sped along on the surface, making fourteen knots an hour. Submerged, he could go at the rate of seven and a half knots an hour.

It is estimated that in the 3,800-mile trip the boat was submerged only during 90 miles of the voyage.

On board the submarine are the captain, first and second officers and 26 men, all wearing the regulation uniform of the German merchant marine.

Probably a day or two will be required to discharge the submarine's cargo; then it will take on the crude rubber and nickel consignments already stored in the pier warehouse for their return trip.

When the start back across the Atlantic will be made is, of course, problematical.

Already the Allies have prepared to patrol the Virginia coast, in an effort to prevent the submarine from again taking to the Atlantic Ocean.

Extraordinary precautions have been taken to protect the Deutschland.

## OHIO ADOPTS MEASURES TO PROTECT

State Board of Health Will Take Every Means to Prevent Epidemic Getting Foothold.

By Associated Press Dispatch.

Columbus, O., July 10. — The State Board of Health has made arrangements whereby it will be notified by Health Commissioner Emerson of New York of any exposure of Ohioans to infantile paralysis in that city.

Upon their return to Ohio, patients will be placed under quarantine until the danger period is passed.

The situation in Ohio at this time is less serious than at corresponding times in other years. The state last year had 465 cases, of which two were fatal.

No action will be taken in Ohio with the view of suppressing an "epidemic" unless the number greatly exceeds the present normal condition.

Mexican Ambassador Gives Second Warning to Washington to "Watch Out."

By Associated Press Dispatch.

Washington, July 10.—A second warning that Villa bandits are headed for the Big Bend district of Texas was given to the State Department today by Eliseo Arredondo, the Mexican Ambassador designate.

He told Acting Secretary Polk his government had given him definite information that the bandits were moving northward toward Bouquillas, Texas, and promised co-operation of the Carranza forces.

# NO HUSBANDS FOR 1,750,000

Paris, July 10.—(Correspondence of the Associated Press)—The latest statistics of the labor department show that while women outnumbered men in France before the war by 756,682 (in a total population of 39,602,258) the war will probably decrease the number of men at least a million, giving the women a majority of 1,750,000.

The additional million excess female population will be obliged, in part at least, to support themselves, increasing considerably the percentage of female wage earners, which according to statistics of the year 1912 was one fourth of the total number of employed in commercial and industrial establishments subject to inspection by the labor department.

There were 11,000,000 persons earning salary or wages in France before the war. They were distributed as follows:

Farm hands ..... 3,300,000  
House servants ..... 900,000  
Government employees ... 800,000  
Commercial employees ... 1,000,000  
Industrial employees ... 5,000,000

Of the 4,360,000 workers in commercial and industrial enterprises inspected in 1912, 1,218,890 were women and girls. There were besides, a million women and girls mostly garment makers engaged on piece work at home and escaping the inspection law. They brought the total of female wage earners up to 2,212,890 as against 3,787,110 men. Since the war began at least 150,000 women have been added to the number, making in round numbers 2,360,000.

Half of the total war losses in men will fall on the factories and commercial establishments, decreasing the total number of male wage earners to 3,287,110. Supposing that half the same number of women will replace them it will bring their total up to 2,860,000 or 47 per cent of the whole.

## COME ON ALL YOU HORSE SHOE MEN!

Big Contest of Pitching Horse Shoes Planned for Fayette County Fair and Will Be Open to All, With Prizes for the Winners.

Every man in the county who can pitch horse shoes—and by the way they are numbered by the hundreds, will have an opportunity to try his skill during the Fayette County Fair, a big contest having been planned by the Fish and Game Protective Association to be conducted in the infield, with liberal prizes for the best pitchers in the county.

The contest planned is a result of the big contest which developed at the recent Fish & Game Protective Association Picnic, when 101 of the "experts" were defeated by Matt Hall, a 17-year-old youngster whose luck clung to him like his shadow, and the usually elusive semi-circular steel would just naturally settle down astride the stake when hurled by the magic hand of young Hall.

The contest is to be open to all, unless other plans are made, and is expected to last throughout the fair. It will be conducted under the rules of the National Horse Shoe Pitcher's Association, and promises to be a very interesting feature of the fair.

It is now up to those who believe they can hurl the shoes to get busy and limber up their throwing arm and learn the magic twist of the wrist which allows the shoe to settle in place.

It is expected that Young Hall will represent Fayette county in the State Tournament at the State Fair, and it is believed that he has an excellent chance of winning the contest.

## VACANT SEATS ON INCREASE

(By Associated Press Cable)

Paris, July 10.—Two more deaths have brought the number of vacant seats in the Chamber of Deputies to thirty-four, including two seats declared vacant for election irregularities. The chamber is now composed of 566 instead of 600 deputies.

There are 32 seats vacant in the senate through death of members since the election of 1914. Since no elections will be held during the war, one department, the Hautes Alpes, whose two senators have died, will be unrepresented in the senate until after peace has been declared.

Of the thirty-two deputies who have died, seven were killed on the battlefield, while one senator, the aviator Emile Reynaud, died in service.

## WANTS ALFALFA ON EVERY FARM

By Associated Press Dispatch.

Marion, O., July 10.—"Alfalfa on every farm" is the slogan to be advanced by the Ohio Association of Alfalfa Growers of which M. C. Thomas, agricultural agent of Marion county, was recently made president.

"Through county organizations, which we hope to perfect throughout Ohio, we hope to teach agriculturists of the state the advantages offered in growing this crop and 'alfalfa on every farm' we believe will then be a thing comparatively easy of accomplishment."

Mr. Thomas is of the belief that alfalfa growing would not only benefit the individual farmer, but be an asset to the state because of the crops' well known hardness and ready market. He is desirous of extending Ohio's agricultural fame by having it widely known as "the first alfalfa state."

The event was arranged principally as a visit to the state I. O. O. F. home here.

### State May Go Into Meat Business.

Columbus, July 10.—The state board of administration is thinking of going into the meat business. It has under consideration at present the idea of building a packing plant at London, to be run in connection with the new penitentiary farm near there. Prison labor would be employed and much of the live stock would be raised on the farm. By saving several profits of middlemen it is believed that the state could more than save the cost of the new building.

The Change in Mexico

For the present at least, the danger of war with Mexico seems to have passed.

Judging, however, from the absence of any declaration to the contrary and from the fact that the mobilization of the army is being proceeded with on the same scale as when the crisis was acute, the federal government is not intending to abandon or materially change its plan of dealing with the menace of disorder on the southern boundary line.

The acceptance of the Carranza offer of direct discussion of our differences, which Secretary of State Lansing has forwarded to Mexico City, the very pronounced expression, by the de facto government and by the government of the United States, of an earnest desire to avoid conflict has done much to relieve the tension and to encourage those who persist in the hope that war will be avoided.

As illustrating how rapidly conditions can and do change in these wonderful times, it is now rumored, apparently with some basis in fact, that this nation may not only reach an agreement regarding the joint campaign against bandits, but will extend financial aid to the sorely pressed Carranza regime.

If that rumor should prove to be founded on fact and result in an agreement between the two nations to that effect it would constitute one of the most remarkable changes in the history of nations.

In these startling times however the announcement of possibilities does not even cause any special wonderment.

The change for the better, even granting the rumor of closer friendship of the substantial aid sort to be without basis in fact, is cause for the thanksgiving by the American people.

Harvest Weather

Fayette county has enjoyed ideal harvest weather—warm and dry with enough breeze stirring at all times to furnish man and beast, weary with the work in the glowing fields, the welcome relief.

It is unusual for the farmers in this section to be blessed with such splendid weather conditions during wheat and hay harvests and they have gathered the golden grain and made hay—while the sun shone—during the past ten days at a rate which bulging mows and stubble fields checkered with wheat shocks testify to have been fully equal to the opportunity.

The only regrettable feature of the harvest time is that there was not a larger crop of wheat to gather.

The farmers, though, optimistic in these days of plenty, forget the shortage of the wheat crop. The rustling blades of the growing corn and the odor of new mown hay cause dreams of abundance from other sources—some already realized and others yet to “come true”—to overshadow the morage of disappointment.

Knowing that we can't have everything right in this world, the farmer is happy that everything save one is right and that one not entirely wrong.

The Menace to Children

That the east is thoroughly alarmed over the appearance of that dread disease, about which the medical profession seems to know so little and is so impotent to combat—infantile paralysis—is evident from the very vigorous means, adopted by the health departments, to segregate the afflicted and the use of every safeguard to prevent its spread either by the removal of the afflicted or those who have been “exposed” to the disease.

Dr. Thomas Darlington, formerly president of the board of health of New York City, declares that he is firmly convinced that not over fifty per cent of the cases reported as infantile paralysis are genuine cases of the dread malady.

That eminent physician states that the unusually large number of cases reported is due to the fact that, in a great many instances, the attending physicians are incorrect in their diagnosis.

We all know from our experiences with epidemic in the past that gross exaggerations have been made by physicians in their reports.

In most instances that is due to overcautiousness. The timid or inexperienced physician above all others, believes in taking no chances and consequently pronounces every disease which resembles the one which is believed to be epidemic, a case for quarantine.

That, of course, adds fuel to the flame of fear but does not change the facts. And after all it is perhaps best that errors be made on that side than on the other. It is better that too much, rather than too little caution be used.

It is to be hoped that Dr. Darlington is right in his statement that the much feared disease is prevalent but not epidemic in New York.

For the present, however, it is best not to take any chances, to accept the reports, of the number of cases, at their face value and do everything possible to stamp out the disease.

METHODS OF EDUCATION.

A Plea For Fewer Studies and Longer Time Devoted to Them.

The defect of American education is diffuseness. The children are bothered and confused by being dragged across the surfaces of too many studies in a day. All of our schools, both public and private, and all our universities and colleges suffer from this same national vice, which is a vice in the American character, a weakness in our temperament. It ought to be met and corrected in every field of life.

What we need is depth. Depth can be imparted through the teaching of anything. It can be imparted through Latin grammar, through handwriting, through carpenter work, through arithmetic or history. The one element required is time. Depth cannot be imparted quickly or in many subjects at once. Leisure is necessary—a slowing down, a taking of things, not easily, but slowly, determinedly, patiently, as if there were plenty of time and nothing else counted.

This is the road to rapid and brilliant work, and there is no other. The smallest children should be set on this road and guided and governed and helped and slaved over by the best of your masters. One subject understood means the world mastered. My friend Frederick Mather of Yale puts the thing as follows:

“If one of our small colleges should, after the manner of the English colleges, devote itself to a few old fashioned subjects, such as Latin and Greek, and some kind of history and philosophy, and should really teach these things, its graduates would soon be so famous and so eminent that banks and railroads would be clamoring for them at the college doors.”

The epigram summarizes the present needs in American education.—John J. Chapman in Atlantic Monthly.

SOUVENIRS FOR BRIDES.

New York Suffragists Tell Each New Wife Power Vote Would Bring.

New York.—Little American flags and suffrage buttons were given out at the marriage license bureau to all the brides of the greater city recently by New York city suffragists. The demonstration took place just as the soldiers were called out to camp, and so many of the brides were tearful little war brides, to whom the American flags presented by the suffragists were peculiarly appropriate. With the flags and buttons each bride received a box of wedding cake tied with suffrage ribbon and a bride's leaflet advising each new wife of the power she might gain for husband and children if she had the vote.

The leaflet told of the good laws women have helped to gain in the twelve suffrage states for the protection of men, women and children. It ended with an appeal to every bride to join the suffrage movement, which is endeavoring to “extend the wife and mother influence throughout the state.”

Chief Scully entered heartily into the plans of the suffragists and permitted them to trim up the marriage chapel in the municipal bureau with yellow flowers.

GAVE HIS LIFE FOR FRANCE

Victor Chapman, son of John J. Chapman of New York, who was killed while serving as a member of the aero-plane corps of France.

Not the Metric System.

Little Lucile, aged five, was talking to a gentleman. When she became impudent her mother took her out of the room to punish her. She could find nothing but the yardstick, so she whipped her with that. A little later Lucile came back in the room, and the gentleman asked her what her mother had done to her. She said, “Mamma just measured me all over.”—Christian Herald.

Model Man.

“I once knew an eccentric man,” stated old Festus Pester, “who when he had got the desired number on the telephone did not demand fiercely, ‘Whizz ziss?’ Instead he invariably said civilly, ‘This is John J. Poppendick wishing to speak to Mr. Buckover.’ His funeral was the largest ever held in the neighborhood where he had resided, and thereat strong men broke down and wept like children, being convinced that they would never again see his like.”—Judge.

BIDDING HER GOOD-BY

This scene, photographed at a railroad siding in New York, is being repeated countless times all over the country as the men of the National Guard start for mobilization camps or for the border.

# COMPANY M IS MUSTERED IN

Nearly All Reported Well By Visitors at Camp Willis—Medical Examination Now Under Way—Boys Are Grieving Because No Pie and Cake in "Mess."

Company M, of the Fourth Regiment, was mustered into the Regular Army, Sunday morning, and medical examinations are now under way, and may result in several men in Company M being thrown out as physically unfit. Not a single man of the Company refused to take the federal oath.

The general health of the company has been good, although Sunday several of the men were reported sick, although their illness was nothing serious, and nothing uncommon in camp life.

Quite a number of persons from this city and county and Greenfield and vicinity went to Columbus Sunday to see the boys in khaki, and the men were delighted to see their friends.

Captain O. E. Hardway came home Saturday evening and returned Sunday morning in time to be mustered into the regular army service with his company.

One of the men was down Sunday night and returned Monday morning, and when asked if all was moving well, said:

"Yes, except we can't get any pie or cake."

The hardships of camp life had no terrors for him, but the fact that pie and cake was not included in the "mess" quite naturally could not "go down" easy.

The men are having considerable drilling and other work, and are located in a splendid camp. They are becoming accustomed to military life and are tanned as "brown as berries."

## TROOPS EXPECT TO LEAVE SOON

Officers of the Fourth Regiment are confident of leaving for the border about the middle of next week.

No order to the contrary has been received, and all of the officers are expecting orders to leave Camp Willis for the border, and are shaping their business affairs to that end.

## "GOPHER" AGAIN IN THE TOILS

"Gopher" Smith, for several weeks past a fugitive from State Hospital for the insane, is once more back in that institution after being surprised while asleep, about six o'clock Monday morning, and taken into custody.

Acting upon numerous complaints made against the man, Guards W. J. Gibson and C. K. Kelley, of the State Hospital, arrived on the early train Monday morning, and in company with Sheriff Jones,

Chief of Police Moore and Patrolman Judy went to the Smith home where it was known Gopher was asleep.

Surrounding the place the authorities walked in and found Smith in bed, and it was necessary to shake him to arouse him. He was overcome with surprise, but under orders from the officers he arose and dressed. Meanwhile he was not permitted to get out of reach of one or other of the officers, so that he was soon loaded into an automobile and taken to the county jail and later removed to the state institution.

The head of the State Hospital will recommend the placing of Smith in the Hospital for the Criminal Insane at Lima, according to the Guards.

During his time at large Smith remained out of sight of the officers as much as possible, and is said to have been in a number of difficulties since his return.

## HEAR OBJECTION TO APPLICATION

Hearing of objections to the application for the appointment of an executor in the matter of the last will and testament of the late John B. McLean, occurred in the Probate Court, Monday, the objections or evidence being taken in the shape of depositions to be submitted to the court in the near future. Probate Judge Allen not being able to obtain leave of absence from his command in order to hear the case Monday.

Attorneys Tom Maddox, this city, and Patterson, of Columbus, represent the children in the case, and Mosler and Lloyd and Gregg, Patton & Gregg representing the opposite side of the case.

## MORE EXPLAINED HOW DOLLAR WAS EARNED

Two more letters from the hustling little folks who have earned their Chautauqua tickets, have been received, telling how their ticket was earned.

Little Miss Janet Whelpley earned her ticket as follows: washing dishes, 25c; practicing music, 25c; dusting, 25c; errands, 25c.

But to Miss Enid McClure belongs the honors of earning her ticket in the most novel ways. Here is how she did it: 25c mowing dandelions; 10c for swimming on her back across pool; 35c for washing dishes, dusting, making beds; 30c for taking care of Buddie. She is now earning enough to purchase ice cream cones while at Chautauqua.

## ALL ARE WELL AT CAMP WASHINGTON

Word from Secretary Patton, head of "Camp Washington," near Bainbridge, where 16 of the older Y. M. C. A. boys are in camp, is that all are well and enjoying every moment in camp, with plenty of good fishing, boating, contests of various kinds and healthful "eats."

Camp Washington is in an ideal location and is just 25 miles from this city, so that many auto loads are expected to visit the camp during the next ten days, and particularly the coming Sunday.

## TRIAL POSTPONED GIRL IS STILL ILL

Because of the continued illness of little Ruth Maag, chief witness in the serious charges filed against three young men of the city and county, the trial was postponed, Monday morning, when the attorney of the accused appeared and announced that his clients were ready for trial.

No definite date for the hearing has been set, and the recovery of the victim will be awaited before the cases come up.

## NOW GO TO IT AND CATCH HIM IF YOU CAN

Remember, it will not be easy as he is very clever and will be extra careful to avoid detection. Read The Herald for all details and where Sherlock Holmes will be each day.

## OLDEST MAN IN COUNTY ENJOYS LIFE TO LIMIT

Mr. Wallace Creamer, Old in Years, But Has Youthful Heart and Possesses All Faculties—Celebrated Fourth in Royal Style.

Fayette county's oldest citizen is Mr. Wallace Creamer, of near Parrotts Station, and while he is in his 98th year he possesses the vitality of the average man of 60 years, and

"UNCLE" WALLACE CREAMER

obtains great enjoyment out of life generally, being in possession of all of his faculties, and apparently will pass the century mark.

Mr. Creamer was born on the farm where he now resides, April 16, 1819, and has long been one of the county's best known citizens, and has the respect of everyone, being a true gentleman in the full sense of the word, and always associated with church work.

That Mr. Creamer possesses vitality of a marked degree is attested by the fact that on July Fourth he came to this city with County Commissioner Louis Perrill and

spent the day. No one experienced a more enjoyable time than "Uncle Wallace," as he is familiarly known.

It was while in this city celebrating the Fourth that he posed for The Herald, and the accompanying picture is the result, showing that he is not lacking in patriotism and that he believes in "preparedness"—especially when it comes to celebrating the Fourth.

Mr. Creamer walks without a cane and is proud of the fact. Part of the time he reads without glasses. His hearing is almost perfect, and his mental powers are as good as ever before, and he takes great pleasure in discussing the latest events, the war in Europe, the Mexican situation, politics, and in fact anything that is given space in the press.

For 35 years Mr. Creamer was Superintendent of the M. E. church Sunday school near his home, but of recent years has not attended church regularly. His wife died some 30 years ago. He has no children.

When he first saw the light of day, and in fact when he was old enough to shoulder a gun and go forth in the almost unbroken forest, wild turkey, deer and other game abounded in this part of the country, so that Mr. Creamer has watched the fairest county in Ohio blossom forth from the unbroken forest and develop into an ideal place of abode. Not only has he watched the transformation but has aided in bringing it about by plying the axe, grubbing hoe, and the rail-maul.

Damon Baker was the first one to thrash his wheat, in this part of the county, the work being done Saturday, and the 22 acres threshed yielding 16 bushels per acre.

The wheat was of very good quality and is rated a very good yield for this season.

Threshing is now under way in various parts of the county, and will be of much shorter duration than usual this year, owing to a smaller acreage and decrease in the yield.

Marriage to obtain a title; marriage that is mere bargain and sale; marriage without love in which a girl gives herself to a man unworthy of her affection, merely to gratify selfish ambition and pride; what subject has been brought more prominently before the American public in the last few years?

The list of American girls of wealth who have sold themselves, or have been sold by scheming mothers, to foreign noblemen, and who have repented bitterly, is a long and notorious one. Clara Williams, who is Co-Star with H. B. Warner in this offering, gave her undivided attention to her gowns. She purchased several creations that came direct from Paris shops and these are said to be unusually beautiful.

HOW MANY OF YOU HAVE SEEN THIS SAME THING HAPPEN IN EVERY DAY LIFE?

## In Social Circles

The society columns of the Sunday Columbus Dispatch contained the following announcement of decided interest to the many friends of the Gwinn family in this city:

"The betrothal of Miss Frances Louise Gwinn, daughter of Mr. and Mrs. O. E. Gwinn, 1706 E. Broad street, to Mr. Warwick Inman Rowland, son of Mr. and Mrs. J. H. Rowland, 79 North Ohio Avenue, was announced to fifteen friends entertained Friday afternoon at a party given by Miss Gwinn in compliment to her guest, Miss Helen Chatman, of Rockford, Ill."

The nuptials will be celebrated the latter part of September.

Mr. and Mrs. O. E. Gwinn, Miss Gwinn and Mr. Rowland, Miss Chatman, Dr. Gwinn, Mrs. C. C. Gwinn, Miss Brown and Mr. Walter Gwinn formed a motoring party down from Columbus Sunday night, dining at the Cherry Hotel and visiting with Washington friends. Miss Ada Woodward, whom the bride-elect has frequently visited, was included in the dinner party.

Sunday a very pleasant surprise was given to W. J. Wilson, who resides at the corner of Rawling and Wilson streets. It was the fifty-fourth anniversary of his birthday and a number of his friends gathered at his home to help him in celebrating the occasion.

Mr. and Mrs. Wilson attended services in the morning and were accompanied home by their pastor, G. E. Groves. On their arrival home they found a number of friends who had gathered to surprise Mr. Wil-

son and help him in celebrating the day.

A bountiful dinner was served and a delightful afternoon was spent.

Besides those mentioned above the following were present:

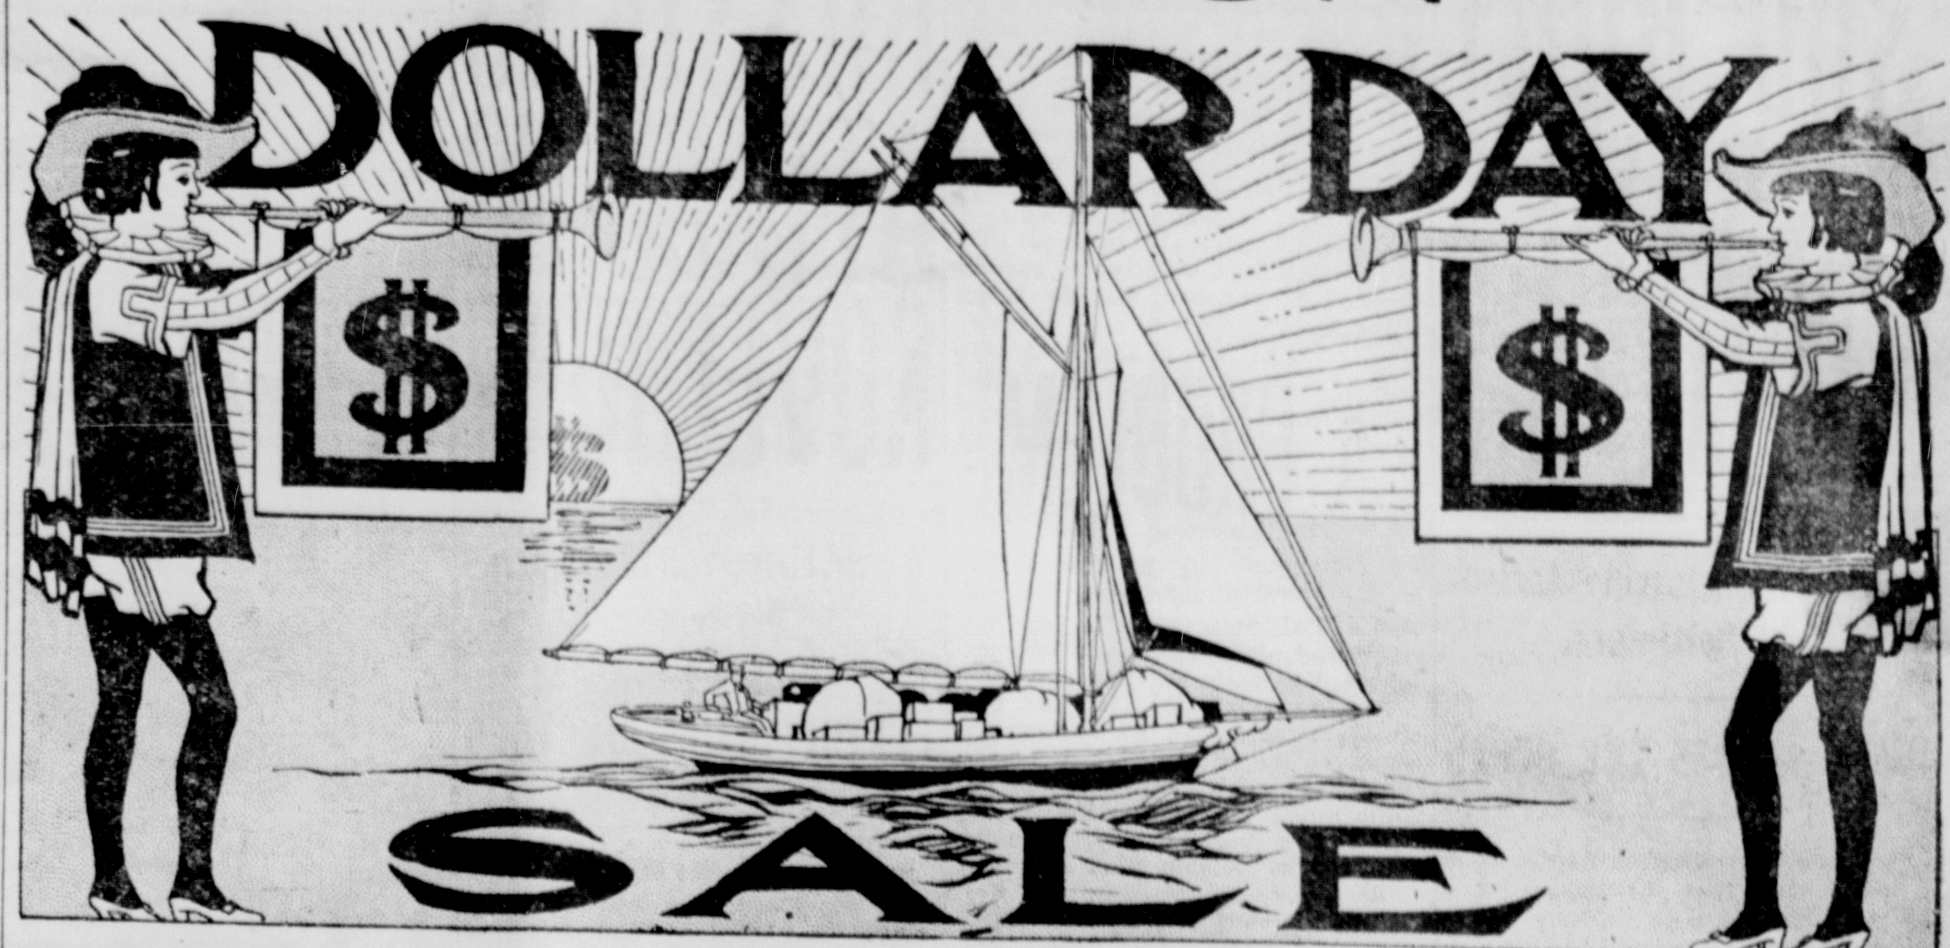

Two sons, Marion and Oscar, Mr. and Mrs. Jesse Dalley, Mr. and Mrs. Raymond Cabbage and son Gene, Mr. and Mrs. Henry Dellenger and son Howard, Mr. and Mrs. John Selman and son Ordie, Mrs. George Olinger, Miss Frances Howland, Mr. Daniel McCallister and daughter Daisy.

Mr. Wilson soon recovered from his surprise and made the guests feel "at home." It will be a day long to be remembered. All wished the host many more happy birthdays.

A jolly picnic party composed of Mr. and Mrs. Homer McCune and children, Mrs. Ervin Bell, Mr. and Mrs. Chas. Griffith and daughters of New Holland, Mr. and Mrs. Geo. Moler and daughter Mildred, Mr. and Mrs. Zooker and children of Portsmouth, motored to Sweet Briar Ridge and spent the day Sunday.

Mr. and Mrs. Frank E. Haines, of the creek road, entertained Mr. Haines' brothers and their families at a most enjoyable dinner Sunday.

The guests were Mr. Austin Haines and family, Mr. Marion Fishback and daughter Miss Grace of Leesburg, Mr. and Mrs. Elba Carson and son of New Martinsburg, Mr. Claude Haines and family of this city.

COL. B. W. HOUGH RIDING MT. STERLING CHIEF

Adjutant General Benson W. Hough, or Lieutenant Col. Hough of the Fourth Regiment, Ohio Infantry, is very much in the public eye at the present time, having resigned as Adjutant General to assume his old position with the Fourth.

Col. Hough tendered his resignation as Adjutant General, and enlisted with his old company as a private. He was roundly "kidded" by the other members of the com-

pany who had considerable sport at his expense. However his old position was vacant, and an election was called and he was chosen Lieutenant Colonel of the Fourth Regiment and assumed command at once.

Although he resigned the office, Col. Hough is still the acting Adjutant General.

In the accompanying picture Col. Hough is shown riding Mt. Sterling Chief, owned by Homer Hutson, of Maplehurst Farm, Paint township.

Mrs. Harry Phillips, who has been visiting in Grenfield, spent Monday with her sisters, Misses Blanche and Arta Moore, enroute to her home in Toledo.

Mrs. F. B. McElwain is over from Cedarville arranging to move to this city later in the summer. She will teach the sixth grade Sunnyside school the coming year.

Mr. and Mrs. Guy Hickie of Cincinnati, were the Sunday guests of Mr. and Mrs. F. B. Creamer. Mr. Hickie is a brother of Mrs. Creamer.

Mr. and Mrs. Harry Heath, Mr. and Mrs. Warren Briggs and Mr. Bennett Bryant of New Holland, spent Sunday in Cincinnati to attend the ball game.

Mr. Will E. Dale and son-in-law, Mr. Stanley Schneider, left Sunday afternoon for Chicago and Grand Rapids, Mich., to attend the furniture expositions.

Mr. and Mrs. Spencer Calvert, daughter Miss Ethel, Mr. and Mrs. George Inskeep and Mr. Arch Riber were motoring visitors in Hillsboro Sunday.

Mr. H. B. Dahl, daughters, Mrs. Conrad Schweitzer and Miss Mary Dahl, joined Mrs. Dahl Sunday at Lake Ridge, O., where they spend the week.

Mr. and Mrs. J. C. Dunn, Mr. and Mrs. Robert C. Dunn, Mr. George H. Hitchcock, Misses Florence Ogle, Josephine Gossard and Grace Ogle attended the funeral of Mr. James Leist in Kingston, Sunday.

Misses Prue and Anna Grace Taylor left Monday morning for Louisville, Ky., to attend the wedding of their cousin, Miss Ruby Branch, to Mr. William Haddon Johnson, of Aiken, S. C., which takes place Wednesday. They will remain for a short visit with relatives.

Dr. and Mrs. L. P. Howell spent Sunday the guests of Mrs. Howell's brother, Mr. Ben Coffman and family in Columbus; Dr. Howell also visiting Camp Willis. They brought home their niece, Manzinta Coffman, for a visit.

Mrs. J. J. Harrington and little daughter Dorothy Jane, who have been spending a few days with their grandmother, Mrs. E. B. Morgan, returned to their home in Cincinnati, Sunday. Mr. Harrington motored up from the Queen City to accompany them home.

Mr. and Mrs. Wheeler of Chicago, who have been motoring guests of Mrs. Wheeler's aunt, Mrs. P. P. Wigginton, started back to their home Monday morning. Mrs. Wigginton and daughter Miss Addie accompanied them for the trip and a two weeks' visit. Enroute they will visit in Indianapolis.

Misses Vesta Hempstead and Stella McCall spent Sunday at the former's home in Wilmington to visit Miss Anna Hempstead, who is recuperating after a successful appendicitis operation. Miss Anna expects to remain at her home most of the summer.

Cherry Hill Principal F. B. Toops has brought his family back to the home in this city after an extended stay in Columbus while the little daughter Margaret, was in Grant Hospital. # SUB BOAT ARRIVES IN PORT

German Submarine Arrives  
at Baltimore.

## CAME ACROSS THE OCEAN

Commanded by Captain Kairig, Who  
Announces That the Voyage Was  
Uneventful—Eluded Enemy War-  
ships in Mid-ocean and Near the Vir-  
ginia Coast—Trip Made in Fourteen  
Days—Arrival of the Boat.

Baltimore, July 10.—After voyaging  
safely across the Atlantic, passing the  
allied blockading squadron and elud-  
ing enemy cruisers watching for her  
off the American coast, the first sub-  
marine merchantman, the German un-  
derwater liner Deutschland, anchored  
below Baltimore Sunday night. The  
vessel carries mail and a cargo of 750  
tons of costly chemicals and dyestuffs  
and is to carry back home a similar  
amount of nickel and crude rubber,  
sorely needed by the German army.

Fifteen days out from Bremerhaven  
to Baltimore, the submarine reached  
safety between the Virginia Capes at  
1:45 o'clock Sunday morning, passing  
in on the surface.

The Deutschland was met by Cap-  
tain Fred Cocke of the Virginia Pilots'  
association, who was bringing the sub-  
marine to this port when she was met  
by the tug Timmins, on board of  
which was Captain Hirsch. Captain  
Cocke then left the undersea craft,  
which was ordered by Captain Hirsch  
to Baltimore.

Captain Cocke stated that the un-  
dersea craft is more than 300 feet  
long, 30 feet wide and was drawing 17  
feet of water when she entered the  
Virginia Capes. The submersible is  
propelled by two Diesel engines of 600  
horsepower and makes about 14 knots  
an hour. She is larger than the aver-  
age freight steamer and makes a speed  
of about three knots in excess of the  
speed attained by the average freight  
boat.

### The Trip Across the Sea.

The Deutschland is commanded by  
Captain Kairig and manned by a crew  
of 29 Germans. She left the German  
port on June 23, according to the  
story Captain Kairig told Captain  
Cocke. Captain Kairig, according to  
Captain Cocke, who was shown  
through the submersible, told him  
that the trip across the Atlantic was  
uneventful. The captain of the sub-  
marine said that he passed several  
British merchant ships and one British  
battleship.

The Deutschland is unarmed. Her  
master and German representatives  
in this country probably will contend  
that her status is that of an unarmed  
merchant ship.

Captain Kairig stated that he an-  
ticipated no trouble in eluding the  
English cruisers expected off the  
capes any minute for the return voy-  
age. The plans of the master of the  
submersible are unknown at this time.  
He, however, is expected to leave for  
Germany within the next week or ten  
days.

British warships were scattered all  
along the Atlantic coast and they  
were ordered to capture or sink this  
defiant craft at all hazards. Twenty  
miles, ten miles and fifty miles off  
the Virginia Capes French and British  
warships were searching by day and  
by night for this strange underwater  
visitor. It was on Thursday and Fri-  
day that the British ships became al-  
most frantic in their efforts to cap-  
ture or destroy the submarine. They  
ran in all directions. Incoming  
steamers reports sighting them going  
north, south, east and west off the  
Virginia Capes.

### Captain Kairig's Story.

Captain Kairig and his officers al-  
ways on watch for the enemy had  
sighted a warship when 100 miles off  
the capes. They sighted another on  
their starboard bow, bearing towards  
them, but it was Friday afternoon  
and Captain Kairig decided to send  
his craft beneath the waters of the  
Atlantic and to sail in the direction  
from which the warship had come.  
He sailed south for perhaps 100 miles,  
and when the submarine again came  
to the surface it was dark. He was  
then in the vicinity of Hatteras. There  
were no warships in sight and he set  
a straight course for the Virginia  
Capes. Captain Kairig declared his  
vessel was not under water more than  
two hours on Saturday. He said:

"I consider our voyage uneventful.  
We had very little trouble. Once we  
had trouble without underwater lights  
and air tanks, but they delayed us  
only a few hours. We were over 800  
miles off the short coast, which  
made us behind the time we could  
make under more favorable condi-  
tions."

"We ran into rough weather almost  
every day for a week. We were forced  
to submerge on these occasions to es-  
cape high seas. It is more comfort-  
able under water when the sea is  
rough. We could not stand on our  
feet on the surface, and the cargo be-  
gan to shift. When we passed near  
the Diamond Shoal lights we were  
partly submerged, the weather was so  
rough. Our ship is as good as new.  
We made the voyage in good time  
considering the difficulties we encoun-  
tered, and probably will do better  
going back."

## A PROBLEM

(By American Press)

Washington, July 10.—The arrival  
of the German submarine Deutsch-  
land at Baltimore brings to the United  
States government an unprece-  
dented diplomatic problem.

The indications are that this gov-  
ernment will not be stampeded into  
action either by the novelty of the  
submarine's feat in crossing the At-  
lantic or by the contentions of the  
German and British government as to  
the status of the ship in an American  
port.

If the Deutschland entered Balti-  
more as a warship this government  
will, it is explained, at once apply the  
international regulations which gov-  
ern the sojourn of a belligerent ves-  
sel in a neutral port. The Deutsch-  
land will be given twenty-four hours  
to leave, in addition to such time as  
is necessary for replenishing her fuel  
supply and making necessary repairs.

If the Deutschland on the other  
hand enters port as a privately owned  
merchant cargo ship, bent on a peace-  
ful commercial or diplomatic mission,  
the United States will recognize the  
validity of the German claim to im-  
munity until facts are brought for-  
ward to disprove it.

## WILL APPEAL TO BUSINESS MEN

Aid Wanted For the Families of  
Needy Guardsmen.

Columbus, July 10.—Commanders of  
regiments of the Ohio national guard  
will make appeals this week to or-  
ganizations of business men in cities  
and villages throughout the state  
whence their troops were recruited  
to obtain financial aid to be used as  
relief funds for families of needy  
guardsmen. Unless such aid is forth-  
coming, many companies this week  
will suffer heavy losses of men  
through the order issued last week  
by the war department, that men  
whose families need them at home  
for financial support may be released  
from service on the discretion of the  
commanding officer.

The appeals will be made following  
the lead taken by the business men's  
organization of Dayton, which has an-  
nounced that it is ready to raise a  
\$200,000 relief fund for the depend-  
ents of needy guardsmen of the Third  
regiment.

The First battalion of field artillery,  
of which Major H. M. Bush of Colum-  
bus is commander, received a \$100,-  
000 balloon and 4,000 feet of cable  
from the Goodyear Rubber company  
of Akron. It requires \$400 worth of  
gas to fill the balloon, for which a spe-  
cial gas plant will be furnished. The  
balloon will be operated by Sergeant  
Ralph H. Upson of Akron, who won  
the international balloon race several  
years ago. The battalion also has re-  
ceived 450 rounds of shrapnel. It now  
has four tons of ammunition of vari-  
ous sorts.

Officers of this battalion spent the  
day in making up the roll for federal  
call. After passing all the men  
through a stiff preparatory medical  
examination a list of men who prob-  
ably will be unfit for service will be  
submitted to the federal medical ex-  
aminers to facilitate their work. No  
officers are included in the list.

## HE NEEDS IT

(By American Press)

Eagle River, Wis., July 10.—Pres-  
ident Wilson is to spend two or three  
weeks in the heart of northern Wis-  
consin forests, incognito, seeking rest  
and recreation, before starting his  
campaign for re-election. This is the  
word that has come to the summer  
resort region, but it is not certain as  
yet where the president will go, or  
how he will arrange to hide from vis-  
itors and curiosity seekers. It is said,  
however, that he will go to some one  
of the numerous private summer  
homes scattered throughout the north  
woods, all at a distance from any set-  
tlement, where he can be absolutely  
alone. The president's vacation is  
said here to be due in August.

## FURTHER GAINS RECORDED

Berlin, Admitting Loss of Hardcourt,  
Believes It Has the Situation On the  
Somme Front Now Well in Hand  
and That Nothing Can Interfere  
With the Progress of the Verdun  
Campaign.

London, July 10.—Fighting between  
the Ancre and Somme rivers was less  
violent than on the last few days, the  
British war office reports.

A desperate German counter attack  
was delivered against the sector held  
by the New Zealanders. The Teutons  
succeeded in penetrating the lines,  
but were ejected within a half hour.  
There is a strengthening in the Ger-  
man artillery bombardment. This is  
taken here as forecasting a German  
counter offensive on a large scale.

The lists of casualties among Brit-  
ish officers issued in the past four  
days, apparently composed almost al-  
together of losses suffered in the past  
week's advance, gives a total of 94  
killed, 594 wounded and 30 missing.

A notable advance was made by  
the French toward the fortress of Pe-  
ronne. On a front of two and one-  
half miles the French penetrated the  
Teuton lines from one to two kilo-  
meters and took the village of  
Blaches.

The news shows little change in  
the relative positions on the western  
front. Berlin admits the loss of  
Hardcourt. It is believed in Berlin  
that the Sixth army and reserves have  
the situation well in hand on the  
Somme front and that nothing can in-  
terfere with the progress of the Ver-  
dun campaign.

Dispatches from Petrograd report  
the Russian forces going from success  
to success.

Not only has General Letchitzky, in  
the south, occupied the railroad junc-  
tion at Delatyn, west of Kolomea, thus  
cutting off General Von Bothmer from  
his supply base, but General Brusiloff,  
in the north, is making surprising ad-  
vances on both sides of the Kovel  
railway toward the Stokhod river.

The Russian communication reports  
the enemy force in this region retir-  
ing in great disorder and adds that  
the Russians have occupied Huliche,  
which is about twenty-four miles to  
the east of Kovel, while apparently  
the Russians are already across the  
Stokhod river somewhere in the re-  
gion of Janovka.

German possession of Baranovichi  
and Kovel are absolutely essential if  
she is to retain her hold over the in-  
vaded parts of Poland and Lithuania,  
but it is considered likely that it is  
only a matter of a few days before the  
Russians will be in possession of Ko-  
vel, which would compel Von Linsin-  
gen's retirement from the Lutsk sal-  
ient.

German dispatches express anxiety  
over the Russian advance.

Charles E. Hughes in his speech of  
acceptance will define in detail his  
attitude towards national issues will  
take place in New York July 31, ac-

expected that almost immediately  
afterward the nominee will begin his  
trip to the Pacific coast, returning in  
time to deliver several speeches in  
Maine before the close of the state  
campaign early in September. It is  
probable that Colonel Roosevelt and

the two former presidents will appear

# VILLA IS DIRECTING REBELLION

Outlaw Chief at Head of New Rebellion.

NEAR CHIHUAHUA BORDER

Force of Carranzistas, Who Marched Against the Rebels That Slaughtered General Ramos' Command, Believed to Have Been Defeated. Loyalty of Arrieta Brothers, Who Joined Carranza Forces, Questioned.

El Paso, Tex., July 10.—Reports are reaching here daily to the effect that General Villa is in the vicinity of the Colorado river, not far from the Chihuahua-Durango border; that he is directing the movements of the army of General Calisto Contreras, and that he is holding another considerable body of men in reserve awaiting the moment when he shall have "sufficiently recovered from his wounds and rheumatism" to stand the hard rides and rapid movements of campaigning.

It looks as though Villa's forces under the personal leadership of Contreras have won another victory over the troops of the de facto government. General Domingo Arrieta, commanding the 2,000 Carranzista troops sent out by General Trevino to disperse the Villistas who had slaughtered the command of General Ramos and later looted and then abandoned the town of Jimenez, reported by wire to General Trevino that he had encountered the rebels at Las Nieves, southwest of Jimenez, and that he was then engaging the Villistas. Since then no word had been received from Arrieta by General Trevino at Chihuahua City.

A suspicion was manifest that the troops of General Arrieta might have revolted when they came in touch with the Villistas. All the Arrieta troops, together with their commander, formerly served under Villa. Some months ago the Arrietas came into disfavor with the Carranza government, which had well defined suspicion of the loyalty of the Durango commander.

Every move in the new rebellion bears the imprint of Villa's own strategy, according to American army officers on the border. The bold attack on General Ramos and his command, the ferocity with which the Villistas fought, the promptitude with which they attacked and looted Jimenez and then slipped away, were typical Villa moves, it is asserted.

## Monkeys Expected to Help in Saving Babies in Fight on Infantile Paralysis

ROCKEFELLER INSTITUTE - MONKEY MAY SAVE CHILD

Thoroughly alarmed by the spread of infantile paralysis among the children of New York city and the peril of its attacking the children of other communities (others have already been affected) the federal authorities offered to the city the aid of the federal health service. Dr. Haven Emerson, city health commissioner, asked the acting surgeon general to obtain, if possible, the release for shipment to the United States of 100 monkeys in the Philippines. In its efforts to solve the all important problem of

how infantile paralysis is "carried" the department of health and co-operating research agencies are seriously embarrassed by a shortage of monkeys. The monkey is the only animal upon which tests to identify the mediums of communication of the disease can be made. The Rockefeller institute, however, which was established by John D. Rockefeller to fight infantile paralysis after his young grandson died of the disease, has 100 monkeys collected in the Philippines ready for shipment. Because of disease among the animals on the islands

there has been an embargo on their exportation. This is why the monkeys have not come to New York. If the efforts of the public health service are successful in having the embargo raised, so far as the monkeys are concerned, although the animals will not arrive for some weeks, Dr. Emerson believes that the scientists of the federal government, of the Rockefeller institute and of other research bodies will be able to make great headway in solving the problem of who and what are the most dangerous "carriers" of infantile paralysis.

## HAS BEEN SERVANT IN ONE PLACE FIFTY-TWO YEARS

Tips Given Negro at Alabama College Would Make a Small Fortune.

Birmingham, Ala.—Fifty-two years a servant in one place is the record of Uncle Abe McClintey, who has waited on the dining table of the Judson Female college at Marion, in this state, ever since 1864. He is personally known and affectionately regarded by thousands of women all over the country who have attended that institution since the civil war. The alumnae of Judson recently donated enough to restore his home, which was destroyed by fire.

Uncle Abe is an old negro of war-times. His record for the same job at the college is said to be the longest in the country. Nearly everybody in Alabama and the south knows him, and his tips during his long service would make a small fortune.

In Marion there are almost twenty antebellum negroes whose attachment and service of early life bound them until death in the esteem of the white race. None are better known and more highly esteemed than Uncle Abe. He is still on the job, which he says he will hold down until he dies.

When Dr. O. L. Shivers was called by the trustees to Judson to take charge of the boarding department in an effort to keep the institution going when Alabama was prostrate from war he carried Uncle Abe with him, and the old negro has served through many administrations. At commencement time, when many seniors and alumnae return for the ceremonies, a fat purse is always made up for Uncle Abe.

## EVERY EFFORT TO STOP DISEASE

### Civilians Assist In Fight Against Infantile Paralysis.

New York, July 10.—The board of health reported that during the past twenty-four hours eighty-eight new cases of infantile paralysis have been reported from the five boroughs of the city, Brooklyn leading with sixty-six. Now that the health department has arrived at a somewhat systematic method of handling the cases all are being sent to the Willard Parker hospital, in Manhattan, and this rule prevails no matter in what section of the city the cases are reported.

The department was assisted in its work by 21,000 civilian volunteers, members of the Home Defense league, an auxiliary of the police department. These assistants inaugurated their work by surveying dark alleys and vacant lots throughout the city. They not only aided the police, but also street cleaners and hundreds of physicians who are combatting the outbreak, under the auspices of the federal, state and municipal health officials. In Brooklyn members of the league reported several violations of the sanitary laws. In Manhattan 160 members of the league were taken around precincts on the lower East Side by half a dozen police captains. In nearly every instance persons approached by the police and the home defenders readily co-operated with them, and good work was accomplished in cleaning up dirt and filth and in covering garbage cans.

## HILLSBORO NEXT SUNDAY

Before a small crowd the Washington Athletics, at the local park, Sunday afternoon, defeated the Xenia ball tossers by a score of ten to six in a game not particularly brilliant, but an ideally good game for fans to see. It was see-saw all the way through until the locals finally pulled away for good.

The Athletics made some long hits and finally in the 5th inning, by a fast ball, compelled the visiting hurler, Free, to abdicate the mound.

Snow, who began the game for the locals, was knocked out of the box in the first inning. Linson, who succeeded, twirled splendid base ball and only a cluster of bunched errors permitted the visitors to score off his delivery.

The local management announces that arrangements for a series of games between Washington and Wilmington and Blanchester for the amateur championship of southern

Ohio have been completed. Hillsboro will play here next Sunday. The series will probably consist of five games with each club.

That every contest will be played for everything in sight goes without saying. The series is just what the fans have been aching for for sometime.

## REACH AGREEMENT IN GRAVEL CASE

The County Commissioners, Jefferson township trustees and Amy F. Shiplette reached an agreement in the matter of the condemnation of certain lands containing gravel, Monday afternoon.

The price agreed upon per yard of gravel was 33 1-3 cents. This price is somewhat higher than that paid in many instances, and is due to lack of excavating before gravel is available.

## WELFARE SOCIETY RECEIVES \$125.25

Mayor Oster has turned over to the Welfare Association the sum of \$125.25 representing the society's amount he obtained from the Metropolitan street shows in this city week before last.

The amount was a surprise to the Association, which is very grateful to Mayor Oster for his part in obtaining the fund.

## EIGHTH READY FOR THE FRONT

By Associated Press Dispatch.

Camp Willis, Columbus, July 10.—Work of equipping the Eighth Regiment was resumed with vigor today, and by nightfall it was believed the regiment would be fully equipped in anticipation of orders to remove to the border to be issued either Tuesday or Wednesday, according to reports at camp.

Two cases of smallpox were discovered in Camp Willis, but care was taken to isolate the patients and to provide sanitary measures.

# MERRY BUNCH NOW IN CAMP AT COLUMBUS

By Associated Press Dispatch.

Camp Willis, Columbus, O., July 10.—"Beware-the dog," this sign surmounted by a skull and crossed bones, evidently calculated to warn passersby of the danger of straying too near the place, may be seen in front of a diminutive tent at the end of company A street, second infantry. The company is from Findlay.

If you stoop so as to get a view of the interior, however, a dog proportionate in size to the tent, may be seen napping in the shelter of the canvass. Though weighing not more than five or six pounds, the dog, "Heller," is leashed by a rope strong enough to tow an automobile.

The boys of the company seem determined not to lose their mascot.

Concession men and refreshment stand proprietors overlooked a bonanza when they failed to establish a place of business at the extreme north end of the camp, two miles from the Fifth Avenue entrance, where the cavalryman, artillerymen and two companies of infantry, the Second and Third, are quartered.

Just across the way from the camp is a farmhouse. After the owner of the place had granted permission for a hundred or more men to pump themselves drinks at the farm well, he decided he would experiment in capitalizing the men's appetites and thirsts.

While his wife prepared bona fide home made pies, cakes cookies and lemonade, the farmer constructed a rude stand in front of his home and, in a couple of hours, began business.

With a rush the hungry troopers swarmed about the stand and, in twenty minutes, everything but the proprietor, the pie plates and the stand itself had been devoured.

Now the farmer and his wife have a cook at work in their kitchen every day and two men assisting in waiting on trade to keep abreast of the rush.

The Duvall family, of Toledo, has the largest representation yet discovered at Camp Willis. Four sons of Mrs. Sophie Duvall are here with the troops, two with company H, of the Sixth regiment and the others in troop D, of the cavalry.

Samuel, aged 33, is duty sergeant and Henry, 30, is first sergeant of the infantry company, and the younger boys, Jette, aged 23, and Manuel, 21, are cavalrymen.

Brigade and headquarters mess is being served Brig. Gen. William V. McMaken and officers of his staff at a house a short distance east of the headquarters' tents. The house is just at the edge of the camp grounds and has for several months been unoccupied.

Service plates and cups, of enamel ware, and steel "tools" as knives, forks and spoons are known in the service, are used by the officers.

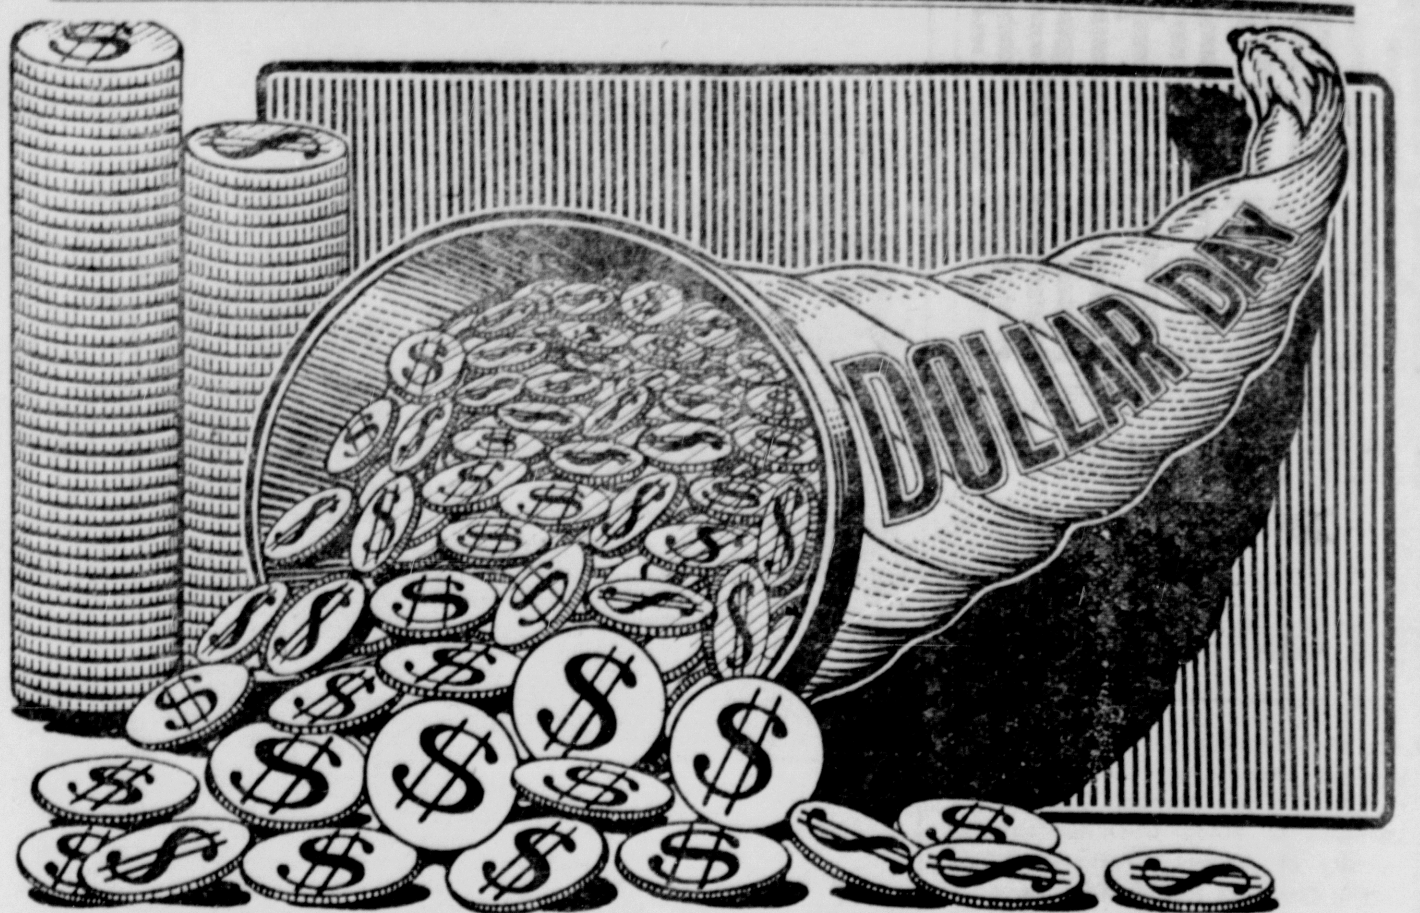

Here is a representative noon day meal at officers' mess; baked ham, macaroni and tomatoes, potatoes, corn, coffee and tapioca pudding.

In the evenings, after drills, mess and camp duties are finished for the day and guards have been assigned for the night, the other men gather in little cliques back of company headquarters and sing. Here's the refrain of a song set to the familiar tune of "Tipperary" devised by a member of company E, Third regiment, of Hamilton:

"It's a hard thing to beat camp Willis  
"It's a hard thing to do  
"It's a hard thing to beat Camp Willis  
"Where the boys are all true blue  
"We hope those mustering officers  
"Won't send us back home  
"For we all want a chance at those old Mexicans  
"They're not expecting us yet back home."

To keep men from other companies "tapping" their inviting water tank, in which someone had placed a cake of ice, men of the headquarters company of the Eighth regiment, from Bucyrus, placed on top of the tank a hive of bees which one of the men, during drill had found on the parade grounds. He had "hived" them in a small store-box and told his company mates the bees "won't bite." The idea was effective in keeping members of other commands away.

## FRENCH FORCES CAPTURE GERMAN THIRD POSITION PERONNE'S FALL, CRITICS SAY, IS QUESTION OF HOURS

Poincare's Troops, Pressing Forward, Are Within One Mile of the Important German Base.

950 Teutons Are Captured.

Kaiser's Troops Attack at Five Points in the Vosges, But Are Turned Back By French.

(Associated Press Cable)  
Paris, July 10.—The French have advanced their line south of the Somme a mile and a half, capturing the German third position along a length of three and one half miles, and are now within a mile of Peronne.

French critics believe that the capture of Peronne is now a question almost of hours.

A new attack was launched in the Champagne by the French last night. The War Office today announces the capture of a number of trenches.

On the Somme front, the French took a line of German positions in the neighborhood of Barleux. In this sector, 950 Germans were captured last night.

The Germans made attacks at five points simultaneously in the Vosges, but all their assaults were checked by the French machine gun fire.

### BRITISH ADVANCE

South American Nations in Row Over Land Tracts.

By Associated Press Dispatch.  
Washington, July 10. — Official dispatches received today in Latin-American diplomatic quarters say a secret agreement has been made between Peru and Venezuela with the object of taking vast tracts of land rightful possession of which they dispute with Colombia and Ecuador. Grave fears for the peace of the nations involved were expressed.

### ORPET TRIAL DRAGS ALONG

By Associated Press Dispatch.  
Waukegan, Ill., July 10.—Eugene Runyard, who heretofore has played a silent part in the prosecution of Will H. Orpet, charged with the murder of Marian Lambert, became the center of interest in Judge Donnelly's court today, when he made the opening argument for the state.

He accused Orpet of being a sullen and vain youth without character.

He said the motives for the crime were clear, and that Marian Lambert had shown by her actions that her sole desire was to live.

The remainder of his address was a bitter tirade against the accused.

## OUR VISITOR GERMAN "U"

Officials Believe That the Vessel Being Unarmed, Will Simplify the Problem of How to Deal With Strange Guest.

French and English Embassies Puzzled Over Proposal to Take on Cargo of Rubber and Nickel

Announced That Big Sub Boat Is First of Commerce Carrying Fleet.

By Associated Press Dispatch.  
BALTIMORE, JULY 10.—UPON DELIVERING HIS SHIP'S PAPERS TO THE OFFICE OF THE NORTH GERMAN LLOYD LINE TODAY, CAPTAIN PAUL KONIG OF THE SUBMARINE MERCHANTMAN DEUTSCHLAND ISSUED A FORMAL STATEMENT, DECLARING THAT HIS VOYAGE ACROSS THE ATLANTIC HAD BROKEN ENGLAND'S RULE OF THE SEAS.

At the same time, the Captain disposed finally of the report that he carried a message from Emperor William to President Wilson, saying there was no foundation for the story.

Captain Konig said:

"The submarine Deutschland, which I have the honor to command, is the first of several submarines built to the order of the Deutsche-

Ozean-Rhederer, of Bremen. She will be followed by the Bremen submarine shortly.

"The idea of building this submarine emanated from Albert Lohmann, president of the Bremen Chamber of Commerce.

"He brought his idea in the fall of last year confidentially before a small circle of friends, and the idea was taken up at once. A company was formed under the name Deutsche-Ozean-Rhederer and the vessel was built at Kiel.

"The Board of Directors is composed of Mr. Lohmann; Phillip Heineken, General Manager of the North-German Lloyd, and the Manager of the Deutsche Bank of Bremen."

### PROBLEM PRESENTED

By Associated Press Dispatch.  
Washington, July 10.—The fact that boarding officers found the German merchant submarine Deutschland wholly unarmed goes far toward simplifying any question as to her status as a merchant ship in American waters.

Officials realize that the British and French Embassies, while little interested in what the Deutschland has brought over, are concerned over the cargo of rubber and nickel she proposes to carry back to Germany and expect that nothing will be left undone by Germany's enemies to prevent or hinder her clearance.

The British and French Embassies today officially called the State Department's attention to the arrival of the Deutschland and asked that this government assure itself of the vessel's character.

This will be done, it was announced, by the assignment of naval experts to assist the Treasury Department.

### ONE OF FLEET

By Associated Press Dispatch.  
Baltimore, July 10.—Definite an-

nouncement that the great German submarine merchantman Deutschland, which arrived at Chesapeake Bay yesterday, is the first of a fleet of such craft to ply regularly in the trans-Atlantic trade, was made here early today by Captain Paul Konig, master of the super-submarine.

The gigantic submarine ended her voyage across the Atlantic at 6:40 this morning, when she docked at the pier of the Eastern Forwarding Company, on the outskirts of Baltimore.

The submarine left quarantine at 5:30, after health officers had boarded the craft and given permission to proceed.

Shortly after 4 o'clock, when daylight was beginning to show, a boat with health and custom officials aboard put out from quarantine and went alongside the submarine.

To the municipal health officer, Dr. Thomas L. Richardson, the skipper presented his bill of health, issued to him by William T. Fee, United States Consul at Bremen, on June 14.

The document described the Deutschland as "a vessel engaged in the freight trade between Bremen and Boston, or other eastern Atlantic ports."

It records her gross tonnage as 791; says she is "newly built," has a cargo of dyestuffs in good condition and "a wholesome supply of water from Bremen works."

One thing the boarding officers noticed particularly: There were no torpedo tubes or guns of any description visible aboard the vessel. They had been told that she mounted two small calibre rifles for defense, but came ashore convinced that the visitor was wholly unarmed.

It was learned that the boat left Bremen with her load of 750 tons of dyestuffs, valued at 1,000,000, which her owners have arranged to sell with five firms in New York City.

At Helgoland she waited nine days, leaving there June 23, to plunge deep beneath the surface of the North Sea to escape the watchful eyes of the Allied blockaders.

Once outside the blockading lines and into the Atlantic, according to the captain, he headed straight across and only deviated from his course once when he saw what he thought was an enemy warcraft.

Most of the time he sped along on the surface, making fourteen knots an hour. Submerged, he could go at the rate of seven and a half knots an hour.

It is estimated that in the 3,800-mile trip the boat was submerged only during 90 miles of the voyage.

On board the submarine are the captain, first and second officers and 26 men, all wearing the regulation uniform of the German merchant marine.

Probably a day or two will be required to discharge the submarine's cargo; then it will take on the crude rubber and nickel consignments already stored in the pier warehouse for their return trip.

When the start back across the Atlantic will be made is, of course, problematical.

Already the Allies have prepared to patrol the Virginia coast, in an effort to prevent the submarine from again taking to the Atlantic Ocean.

Extraordinary precautions have been taken to protect the Deutschland.

## OHIO ADOPTS MEASURES TO PROTECT

State Board of Health Will Take Every Means to Prevent Epidemic Getting Foothold.

By Associated Press Dispatch.  
Columbus, O., July 10. — The State Board of Health has made arrangements whereby it will be notified by Health Commissioner Emerson of New York of any exposure of Ohioans to infantile paralysis in that city.

Upon their return to Ohio, patients will be placed under quarantine until the danger period is passed.

The situation in Ohio at this time is less serious than at corresponding times in other years. The state last year had 465 cases, of which two were fatal.

No action will be taken in Ohio with the view of suppressing an "epidemic" unless the number greatly exceeds the present normal condition.

By Associated Press Dispatch.  
Washington, July 10.—A second warning that Villa bandits are headed for the Big Bend district of Texas was given to the State Department today by Eliseo Arredondo, the Mexican Ambassador designate.

He told Acting Secretary Polk his government had given him definite information that the bandits were moving northward toward Bouquillas, Texas, and promised co-operation of the Carranza forces.

# NO HUSBANDS FOR 1,750,000

Paris, July 10.—(Correspondence of the Associated Press)—The latest statistics of the labor department show that while women outnumbered men in France before the war by 756,682 (in a total population of 39,692,258) the war will probably decrease the number of men at least a million, giving the women a majority of 1,750,000.

The additional million excess female population will be obliged, in part at least, to support themselves, increasing considerably the percentage of female wage earners, which according to statistics of the year 1912 was one fourth of the total number of employed in commercial and industrial establishments subject to inspection by the labor department.

There were 11,000,000 persons earning salary or wages in France before the war. They were distributed as follows:

Farm hands	3,300,000
House servants	900,000
Government employees	800,000
Commercial employees	1,000,000
Industrial employees	5,000,000

Of the 4,360,000 workers in commercial and industrial enterprises inspected in 1912, 1,218,890 were women and girls. There were besides, a million women and girls mostly garment makers engaged on piece work at home and escaping the inspection law. They brought the total of female wage earners up to 2,212,890 as against 3,787,110 men. Since the war began at least 150,000 women have been added to the number, making in round numbers 2,360,000.

Half of the total war losses in men will fall on the factories and commercial establishments, decreasing the total number of male wage earners to 3,287,110. Supposing that half the same number of women will replace them it will bring their total up to 2,860,000 or 47 per cent of the whole.

## COME ON ALL YOU HORSE SHOE MEN!

**Big Contest of Pitching Horse Shoes Planned for Fayette County Fair and Will Be Open to All, With Prizes for the Winners.**

Every man in the county who can pitch horse shoes—and by the way they are numbered by the hundreds, will have an opportunity to try his skill during the Fayette County Fair, a big contest having been planned by the Fish and Game Protective Association to be conducted in the infield, with liberal prizes for the best pitchers in the county.

The contest planned is a result of the big contest which developed at the recent Fish & Game Protective Association Picnic, when 101 of the "experts" were defeated by Matt Hall, a 17-year-old youngster whose luck clung to him like his shadow, and the usually elusive semi-circular steel would just naturally settle down astride the stake when hurled by the magic hand of young Hall.

The contest is to be open to all, unless other plans are made, and is expected to last throughout the fair. It will be conducted under the rules of the National Horse Shoe Pitcher's Association, and promises to be a very interesting feature of the fair.

It is now up to those who believe they can hurl the shoes to get busy and limber up their throwing arm and learn the magic twist of the wrist which allows the shoe to settle in place.

It is expected that Young Hall will represent Fayette county in the State Tournament at the State Fair, and it is believed that he has an excellent chance of winning the contest.

## VACANT SEATS ON INCREASE

(By Associated Press Cable)  
Paris, July 10.—Two more deaths have brought the number of vacant seats in the Chamber of Deputies to thirty-four, including two seats declared vacant for election irregularities. The chamber is now composed of 566 instead of 600 deputies.

There are 32 seats vacant in the senate through death of members since the election of 1914. Since no elections will be held during the war, one department, the Hautes Alpes, whose two senators have died, will be unrepresented in the senate until after peace has been declared.

Of the thirty-two deputies who have died, seven were killed on the battlefield, while one senator, the aviator Emile Raymond, died in service.

## WANTS ALFALFA ON EVERY FARM

By Associated Press Dispatch.  
Marion, O., July 10.—"Alfalfa on every farm" is the slogan to be advanced by the Ohio Association of Alfalfa Growers of which M. C. Thomas, agricultural agent of Marion county, was recently made president.

"Through county organizations, which we hope to perfect throughout Ohio, we hope to teach agriculturalists of the state the advantages offered in growing this crop and 'alfalfa on every farm' we believe will then be a thing comparatively easy of accomplishment."

Mr. Thomas is of the belief that alfalfa growing would not only benefit the individual farmer, but be an asset to the state because of the crops' well known hardness and ready market. He is desirous of extending Ohio's agricultural fame by having it widely known as "the first alfalfa state."

## OHIO NEWS

(By American Press)

### Young Girl a Suicide.

Springfield, O., July 10.—Gladys Stroup, fifteen, became angry when her mother ordered her to go to the grocery, picked up a bottle of poison, drank it and died.

### Fire Attacks Factory.

Ironton, O., July 10.—Fire, which started from a defective fuse, destroyed the Standard Slag company's plant here, Ironton's newest industry. The loss is estimated at \$30,000.

### Safe Cracked and Robbed.

Toledo, July 10.—Robbers blew the vault of Oakwood bank and got more than \$500. No attempt was made to blow the Manganese safe. Three men are being sought. They abandoned a ditched automobile near Haskins. Some of the loot was found near the automobile.

### Machine Overturned.

Elyria, O., July 10.—John M. Wisman, thirty-nine, married, is dead; Henry Honberger probably is fatally injured and Albert Robinson escaped with serious cuts and bruises when an automobile they were driving turned turtle on the Grafton road curve. All reside in Elyria.

### Commits Suicide On River Front.

East Liverpool, O., July 10.—A man believed to be C. H. Holmes, auditor of the Wheeling and Lake Erie railroad of Cleveland, shot himself on the banks of the Ohio river here in the presence of many spectators. A tailor's label bearing the name of C. H. Holmes was found in the victim's coat.

### Automobile Ditched.

Dayton, O., July 10.—Edwin Kastrop, fourteen, of Cincinnati, was killed; Dollie Bacciocco, twenty-four, Cincinnati; William Kastrop, twenty-one, Cincinnati, and Mr. and Mrs. George Skipper of New York city were severely injured when an automobile driven by William Kastrop ran into a ditch along the Cincinnati pike about three miles south of this city.

### Crowded Car Hits Work Train.

Youngstown, O., July 10.—Fifteen persons were injured, some seriously, when a crowded passenger car on the Youngstown and Sharon Interurban line crashed into a work car near the Basin street tunnel here. Most of the injuries were received during a panic that followed the collision. Mrs. George Jones of Pittsburgh is believed to be fatally injured.

### Five Thousand Attend.

Springfield, O., July 10.—Visitors from I. O. O. F. lodges and encampments in all parts of the state, numbering in all about 5,000, attended a "home-coming" here in connection with the twenty-second session of the Patriarchs Militant of the state and the seventy-seventh session of the Grand lodge of Ohio. The event was arranged principally as a visit to the state I. O. O. F. home here.

### State May Go Into Meat Business.

Columbus, July 10.—The state board of administration is thinking of going into the meat business. It has under consideration at present the idea of building a packing plant at London, to be run in connection with the new penitentiary farm near there. Prison labor would be employed and much of the live stock would be raised on the farm. By saving several profits of middlemen it is believed that the state could more than save the cost of the new building.

## INJURED BY PORCUPINE

(By American Press)  
Dayton, O., July 10.—Fearing that a porcupine quill, which a pet animal had shot into his body, was working its way to his heart and would kill him, O. F. Packard, seventy-eight, committed suicide. He was found in bed with a bullet wound in his head and the revolver in his hand.

## GYPSIES ATTACK AN OHIO FARMER

(By American Press)

Columbus, July 10.—A band of thirty-five gypsies jumped out of their six wagons in front of the farmhouse of David Gill, who lives by himself just north of Westerville, attacked him and took \$4 from his clothes. He was bitten severely on the hands and arms by the gypsy women. At Galena, seven miles north of Westerville, the band was overtaken, rounded up and taken to Delaware jail by the sheriff.

## GRADE CROSSING

(By American Press)

Findlay, O., July 10.—Curtis Moffitt, sixty-seven, a Hancock county farmer, was instantly killed, his wife was fatally hurt and their daughter, Mrs. Ruth George, injured, when an automobile in which they were riding was hit by a Nickel Plate passenger train at Leipsic. A freight train obstructed their view as their machine approached the railroad crossing. The passenger train shot out in front of the machine a second before the latter reached the tracks. Mr. Moffitt's head was severed from his body. The machine, which was a new one, is a total wreck.

## THAW IN COLUMBUS

(By American Press)

Columbus, July 10.—Harry K. Thaw, Pittsburgh millionaire and leading man in a dozen episodes of international interest, is in the city with his attorney, Frank K. Johnston of New York. They arrived from Detroit, where Thaw has business interests, and will leave for Pittsburgh by way of Zanesville and Wheeling.

## The Change in Mexico

For the present at least, the danger of war with Mexico seems to have passed.

Judging, however, from the absence of any declaration to the contrary and from the fact that the mobilization of the army is being proceeded with on the same scale as when the crisis was acute, the federal government is not intending to abandon or materially change its plan of dealing with the menace of disorder on the southern boundary line.

The acceptance of the Carranza offer of direct discussion of our differences, which Secretary of State Lansing has forwarded to Mexico City, the very pronounced expression, by the de facto government and by the government of the United States, of an earnest desire to avoid conflict has done much to relieve the tension and to encourage those who persist in the hope that war will be avoided.

As illustrating how rapidly conditions can and do change in these wonderful times, it is now rumored, apparently with some basis in fact, that this nation may not only reach an agreement regarding the joint campaign against bandits, but will extend financial aid to the sorely pressed Carranza regime.

If that rumor should prove to be founded on fact and result in an agreement between the two nations to that effect it would constitute one of the most remarkable changes in the history of nations.

In these startling times however the announcement of possibilities does not even cause any special wonderment.

The change for the better, even granting the rumor of closer friendship of the substantial aid sort to be without basis in fact, is cause for the thanksgiving by the American people.

## Harvest Weather

Fayette county has enjoyed ideal harvest weather—warm and dry with enough breeze stirring at all times to furnish man and beast, weary with the work in the glowing fields, the welcome relief.

It is unusual for the farmers in this section to be blessed with such splendid weather conditions during wheat and hay harvests and they have gathered the golden grain and made hay—while the sun shone—during the past ten days at a rate which bulging mows and stubble fields checkered with wheat shocks testify to have been fully equal to the opportunity.

The only regrettable feature of the harvest time is that there was not a larger crop of wheat to gather.

The farmers, though, optimistic in these days of plenty, forget the shortage of the wheat crop. The rustling blades of the growing corn and the odor of new mown hay cause dreams of abundance from other sources—some already realized and others yet to "come true"—to overshadow the murmur of disappointment.

Knowing that we can't have everything right in this world, the farmer is happy that everything save one is right and that one not entirely wrong.

## The Menace to Children

That the east is thoroughly alarmed over the appearance of that dread disease, about which the medical profession seems to know so little and is so impotent to combat—infantile paralysis—is evident from the very vigorous means, adopted by the health departments, to segregate the afflicted and the use of every safeguard to prevent its spread either by the removal of the afflicted or those who have been "exposed" to the disease.

Dr. Thomas Darlington, formerly president of the board of health of New York City, declares that he is firmly convinced that not over fifty per cent of the cases reported as infantile paralysis are genuine cases of the dread malady.

That eminent physician states that the unusually large number of cases reported is due to the fact that, in a great many instances, the attending physicians are incorrect in their diagnosis.

We all know from our experiences with epidemic in the past that gross exaggerations have been made by physicians in their reports.

In most instances that is due to overcautiousness. The timid or inexperienced physician above all others, believes in taking no chances and consequently pronounces every disease which resembles the one which is believed to be epidemic, a case for quarantine.

That, of course, adds fuel to the flame of fear but does not change the facts. And after all it is perhaps best that errors be made on that side than on the other. It is better that too much, rather than too little caution be used.

It is to be hoped that Dr. Darlington is right in his statement that the much feared disease is prevalent but not epidemic in New York.

For the present, however, it is best not to take any chances, to accept the reports, of the number of cases, at their face value and do everything possible to stamp out the disease.

### METHODS OF EDUCATION.

**A Plea For Fewer Studies and Longer Time Devoted to Them.**

The defect of American education is diffuseness. The children are bothered and confused by being dragged across the surfaces of too many studies in a day. All of our schools, both public and private, and all our universities and colleges suffer from this same national vice, which is a vice in the American character, a weakness in our temperament. It ought to be met and corrected in every field of life.

What we need is depth. Depth can be imparted through the teaching of anything. It can be imparted through Latin grammar, through handwriting, through carpenter work, through arithmetic or history. The one element required is time. Depth cannot be imparted quickly or in many subjects at once. Leisure is necessary—a slowing down, a taking of things, not easily, but slowly, determinedly, patiently, as if there were plenty of time and nothing else counted.

This is the road to rapid and brilliant work, and there is no other. The smallest children should be set on this road and guided and governed and helped and slaved over by the best of your masters. One subject understood means the world mastered. My friend Frederick Mather of Yale puts the thing as follows:

"If one of our small colleges should, after the manner of the English colleges, devote itself to a few old fashioned subjects, such as Latin and Greek, and some kind of history and philosophy, and should really teach these things, its graduates would soon be so famous and so eminent that banks and railroads would be clamoring for them at the college doors."

The epigram summarizes the present needs in American education.—John J. Chapman in Atlantic Monthly.

### SOUVENIRS FOR BRIDES.

**New York Suffragists Tell Each New Wife Power Vote Would Bring.**

New York.—Little American flags and suffrage buttons were given out at the marriage license bureau to all the brides of the greater city recently by New York city suffragists. The demonstration took place just as the soldiers were called out to camp, and so many of the brides were tearful little war brides, to whom the American flags presented by the suffragists were peculiarly appropriate. With the flags and buttons each bride received a box of wedding cake tied with suffrage ribbon and a bride's leaflet advising each new wife of the power she might gain for husband and children if she had the vote.

The leaflet told of the good laws women have helped to gain in the twelve suffrage states for the protection of men, women and children. It ended with an appeal to every bride to join the suffrage movement, which is endeavoring to "extend the wife and mother influence throughout the state."

Chief Scully entered heartily into the plans of the suffragists and permitted them to trim up the marriage chapel in the municipal bureau with yellow flowers.

### Not the Metric System.

Little Lucile, aged five, was talking to a gentleman. When she became impatient her mother took her out of the room to punish her. She could find nothing but the yardstick, so she whipped her with that. A little later Lucile came back in the room, and the gentleman asked her what her mother had done to her. She said, "Mamma just measured me all over."—Christian Herald.

### Model Man.

"I once knew an eccentric man," stated old Festus Pester, "who when he had got the desired number on the telephone did not demand fiercely, 'Whizz ziss?' Instead he invariably said civilly, 'This is John J. Poppen-dick wishing to speak to Mr. Buck-over.' His funeral was the largest ever held in the neighborhood where he had resided, and thereat strong men broke down and wept like children, being convinced that they would never again see his like."—Judge.

# COMPANY M IS MUSTERED IN

Nearly All Reported Well By Visitors at Camp Willis—Medical Examination Now Under Way—Boys Are Grieving Because No Pie and Cake in "Mess."

Company M, of the Fourth Regiment, was mustered into the Regular Army, Sunday morning, and medical examinations are now under way, and may result in several men in Company M being thrown out as physically unfit. Not a single man of the Company refused to take the federal oath.

The general health of the company has been good, although Sunday several of the men were reported sick, although their illness was nothing serious, and nothing uncommon in camp life.

Quite a number of persons from this city and county and Greenfield and vicinity went to Columbus Sunday to see the boys in khaki, and the men were delighted to see their friends.

Captain O. E. Hardway came home Saturday evening and returned Sunday morning in time to be mustered into the regular army service with his company.

One of the men was down Sunday night and returned Monday morning, and when asked if all was moving well, said:

"Yes, except we can't get any pie or cake."

The hardships of camp life had no terrors for him, but the fact that pie and cake was not included in the "mess" quite naturally could not "go down" easy.

The men are having considerable drilling and other work, and are located in a splendid camp. They are becoming accustomed to military life and are tanned as "brown as berries."

## TROOPS EXPECT TO LEAVE SOON

Officers of the Fourth Regiment are confident of leaving for the border about the middle of next week.

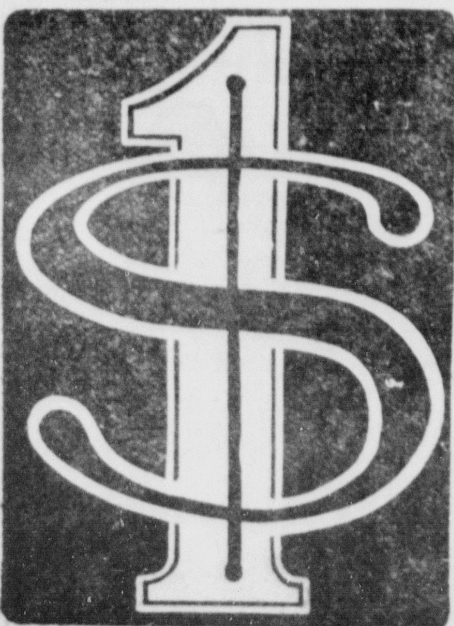

No order to the contrary has been received, and all of the officers are expecting orders to leave Camp Willis for the border, and are shaping their business affairs to that end.

## "GOPHER" AGAIN IN THE TOILS

"Gopher" Smith, for several weeks past a fugitive from State Hospital for the insane, is once more back in that institution after being surprised while asleep, about six o'clock Monday morning, and taken into custody.

Acting upon numerous complaints made against the man, Guards W. J. Gibson and C. K. Kelley, of the State Hospital, arrived on the early train Monday morning, and in company with Sheriff Jones,

Stutson's

**Dollar Day**  
Thursday, July 13

Chief of Police Moore and Patrolman Judy went to the Smith home where it was known Gopher was asleep.

Surrounding the place the authorities walked in and found Smith in bed, and it was necessary to shake him to arouse him. He was overcome with surprise, but under orders from the officers he arose and dressed. Meanwhile he was not permitted to get out of reach of one or other of the officers, so that he was soon loaded into an automobile and taken to the county jail and later removed to the state institution.

The head of the State Hospital will recommend the placing of Smith in the Hospital for the Criminal Insane at Lima, according to the Guards.

During his time at large Smith remained out of sight of the officers as much as possible, and is said to have been in a number of difficulties since his return.

## HEAR OBJECTION TO APPLICATION

Hearing of objections to the application for the appointment of an executor in the matter of the last will and testament of the late John B. McLean, occurred in the Probate Court, Monday, the objections or evidence being taken in the shape of depositions to be submitted to the court in the near future. Probate Judge Allen not being able to obtain leave of absence from his command in order to hear the case Monday.

Attorneys Tom Maddox, this city, and Patterson, of Columbus, represent the children in the case, and Mosier and Lloyd and Gregg, Patton & Gregg representing the opposite side of the case.

## MORE EXPLAINED HOW DOLLAR WAS EARNED

Two more letters from the hustling little folks who have earned their Chautauqua tickets, have been received, telling how their ticket was earned.

Little Miss Janet Whelpley earned her ticket as follows: washing dishes, 25c; practicing music, 25c; dusting, 25c; errands, 25c.

But to Miss Enid McClure belongs the honors of earning her ticket in the most novel ways. Here is how she did it: 25c mowing dandelions; 10c for swimming on her back across pool; 35c for washing dishes, dusting, making beds; 30c for taking care of Buddie. She is now earning enough to purchase ice cream cones while at Chautauqua.

## ALL ARE WELL AT CAMP WASHINGTON

Word from Secretary Patton, head of "Camp Washington," near Bainbridge, where 16 of the older V. M. C. A. boys are in camp, is that all are well and enjoying every moment in camp, with plenty of good fishing, boating, contests of various kinds and healthful "eats."

Camp Washington is in an ideal location and is just 25 miles from this city, so that many auto loads are expected to visit the camp during the next ten days, and particularly the coming Sunday.

## TRIAL POSTPONED GIRL IS STILL ILL

Because of the continued illness of little Ruth Maag, chief witness in the serious charges filed against three young men of the city and county, the trial was postponed, Monday morning, when the attorney of the accused appeared and announced that his clients were ready for trial.

No definite date for the hearing has been set, and the recovery of the victim will be awaited before the cases come up.

## TEN COACH TRAIN ON PENNSYLVANIA

The excursion train over the Pennsylvania railroad was made up of ten coaches pulled by two engines, Sunday.

The train started from Zanesville and the excursionists spent the day in Cincinnati, returning Sunday night. A large delegation from Zanesville was aboard the train.

## NOW GO TO IT AND CATCH HIM IF YOU CAN

Remember, it will not be easy as he is very clever and will be extra careful to avoid detection. Read The Herald for all details and where Sherlock Holmes will be each day.

## OLDEST MAN IN COUNTY ENJOYS LIFE TO LIMIT

Mr. Wallace Creamer, Old in Years, But Has Youthful Heart and Possesses All Faculties—Celebrated Fourth in Royal Style.

Fayette county's oldest citizen is Mr. Wallace Creamer, of near Parrotts Station, and while he is in his 98th year he possesses the vitality of the average man of 60 years, and

"UNCLE" WALLACE CREAMER

obtains great enjoyment out of life generally, being in possession of all of his faculties, and apparently will pass the century mark.

Mr. Creamer was born on the farm where he now resides, April 16, 1819, and has long been one of the county's best known citizens, and has the respect of everyone, being a true gentleman in the full sense of the word, and always associated with church work.

That Mr. Creamer possesses vitality of a marked degree is attested by the fact that on July Fourth he came to this city with County Commissioner Louis Perrill and

spent the day. No one experienced a more enjoyable time than "Uncle Wallace," as he is familiarly known.

It was while in this city celebrating the Fourth that he posed for The Herald, and the accompanying picture is the result, showing that he is not lacking in patriotism and that he believes in "preparedness"—especially when it comes to celebrating the Fourth.

Mr. Creamer walks without a cane and is proud of the fact. Part of the time he reads without glasses. His hearing is almost perfect, and his mental powers are as good as ever before, and he takes great pleasure in discussing the latest events, the war in Europe, the Mexican situation, politics, and in fact anything that is given space in the press.

For 35 years Mr. Creamer was Superintendent of the M. E. church Sunday school near his home, but of recent years has not attended church regularly. His wife died some 30 years ago. He has no children.

When he first saw the light of day, and in fact when he was old enough to shoulder a gun and go forth in the almost unbroken forest, wild turkey, deer and other game abounded in this part of the country, so that Mr. Creamer has watched the fairest county in Ohio blossom forth from the unbroken forest and develop into an ideal place of abode. Not only has he watched the transformation but has aided in bringing it about by plying the axe, grubbing hoe, and the rail-maul.

## SIXTEEN BUSHEL AVERAGE PER ACRE

Damon Baker was the first one to thrash his wheat, in this part of the county, the work being done Saturday, and the 22 acres threshed yielding 16 bushels per acre.

The wheat was of very good quality and is rated a very good yield for this season.

Threshing is now under way in various parts of the county, and will be of much shorter duration than usual this year, owing to a smaller acreage and decrease in the yield.

## "THE MARKET OF VAIN DESIRE"

Marriage to obtain a title; marriage that is mere bargain and sale; marriage without love in which a girl gives herself to a man unworthy of her affection, merely to gratify selfish ambition and pride; what subject has been brought more prominently before the American public in the last few years?

The list of American girls of wealth who have sold themselves, or have been sold by scheming mothers, to foreign noblemen, and who have repented bitterly, is a long and notorious one. Clara Williams, who is Co-Star with H. B. Warner in this offering, gave her undivided attention to her gowns. She purchased several creations that came direct from Paris shops and these are said to be unusually beautiful.

HOW MANY OF YOU HAVE SEEN THIS SAME THING HAPPEN IN EVERY DAY LIFE?

John Armstrong, the fearless clergyman, solves the problem in this one case in "The Market of Vain Desire."

## In Social Circles

The society columns of the Sunday Columbus Dispatch contained the following announcement of decided interest to the many friends of the Gwinn family in this city:

"The betrothal of Miss Frances Louise Gwinn, daughter of Mr. and Mrs. O. E. Gwinn, 1706 E. Broad street, to Mr. Warwick Inman Rowland, son of Mr. and Mrs. J. H. Rowland, 79 North Ohio Avenue, was announced to fifteen friends entertained Friday afternoon at a party given by Miss Gwinn in compliment to her guest, Miss Helen Chatman, of Rockford, Ill."

The nuptials will be celebrated the latter part of September.

Mr. and Mrs. O. E. Gwinn, Miss Gwinn and Mr. Rowland, Miss Chatman, Dr. Gwinn, Mrs. C. C. Gwinn, Miss Brown and Mr. Walter Gwinn formed a motoring party down from Columbus Sunday night, dining at the Cherry Hotel and visiting with Washington friends. Miss Ada Woodward, whom the bride-elect has frequently visited, was included in the dinner party.

Sunday a very pleasant surprise was given to W. J. Wilson, who resides at the corner of Rawling and Wilson streets. It was the fifty-fourth anniversary of his birthday and a number of his friends gathered at his home to help him in celebrating the occasion.

Mr. and Mrs. Wilson attended services in the morning and were accompanied home by their pastor, G. E. Groves. On their arrival home they found a number of friends who had gathered to surprise Mr. Wil-

son and help him in celebrating the day.

A bountiful dinner was served and a delightful afternoon was spent.

Besides those mentioned above the following were present:

Two sons, Marion and Oscar, Mr. and Mrs. Jesse Dailey, Mr. and Mrs. Raymond Cabbage and son Gene, Mr. and Mrs. Henry Dellenger and son Howard, Mr. and Mrs. John Selman and son Ordie, Mrs. George Olinger, Miss Frances Howland, Mr. Daniel McCallister and daughter Daisy.

Mr. Wilson soon recovered from his surprise and made the guests feel "at home." It will be a day long to be remembered. All wished the host many more happy birthdays.

A jolly picnic party composed of Mr. and Mrs. Homer McCune and children, Mrs. Ervin Bell, Mr. and Mrs. Chas. Griffith and daughters of New Holland, Mr. and Mrs. Geo. Moler and daughter Mildred, Mr. and Mrs. Zooker and children of Portsmouth, motored to Sweet Briar Ridge and spent the day Sunday.

Mr. and Mrs. Frank E. Haines, of the creek road, entertained Mr. Haines' brothers and their families at a most enjoyable dinner Sunday.

The guests were Mr. Austin Haines and family, Mr. Marion Fishback and daughter Miss Grace of Leesburg, Mr. and Mrs. Elba Carson and son of New Martinsburg, Mr. Claude Haines and family of this city.

gret to hear that she is very seriously ill in Mt. Carmel Hospital.

Miss Rose Richwine is down from Columbus spending the week with Mrs. Jesse Blackmer, Mrs. Will Burnett and Miss Jessie Wain.

Mr. and Mrs. Homer Barnes, Mr. Pearl Miller and family of Hillsboro, were the guests of Mr. and Mrs. W. P. Barnes Sunday.

Miss Blanche Sark, who has been the guest of Miss Opal Stanforth, left Monday morning for her home in Ashville, O.

Mr. O. H. Robbins, accompanied by Mr. William Maybrie, of Iowa, came up from Beaver to spend Sunday with Mrs. Robbins.

Miss Lelia Culberson of Milledgeville was the week end guest of Miss Marguerite Wilson, south of town.

Mr. Oliver Wood, principal of the Cisco centralized school, is taking the Ohio University summer course at Athens.

Mr. and Mrs. Charles Allen, son Renick, and Mrs. Rell G. Allen, visited with Major Allen at Camp Willis Sunday.

William Henry Edwards and Donald Kyle of Lancaster are enjoying a two weeks' camp on the banks of Sugar Creek on the Sturgeon farm.

Miss Clara Gross, who accompanied the Dahl-Campbell party to Atlantic City, N. J., going on to New York for a few days' visit, returned home Sunday.

Miss Laura Bush returned to her home in Dayton Sunday, after a week's visit with her mother, Mrs. Emily Bush, and other relatives and friends.

Mr. and Mrs. Howard Jennings, Mr. and Mrs. Harry Jennings, of Williamsport, were the guests of Mrs. Harlett Patterson and family, Sunday.

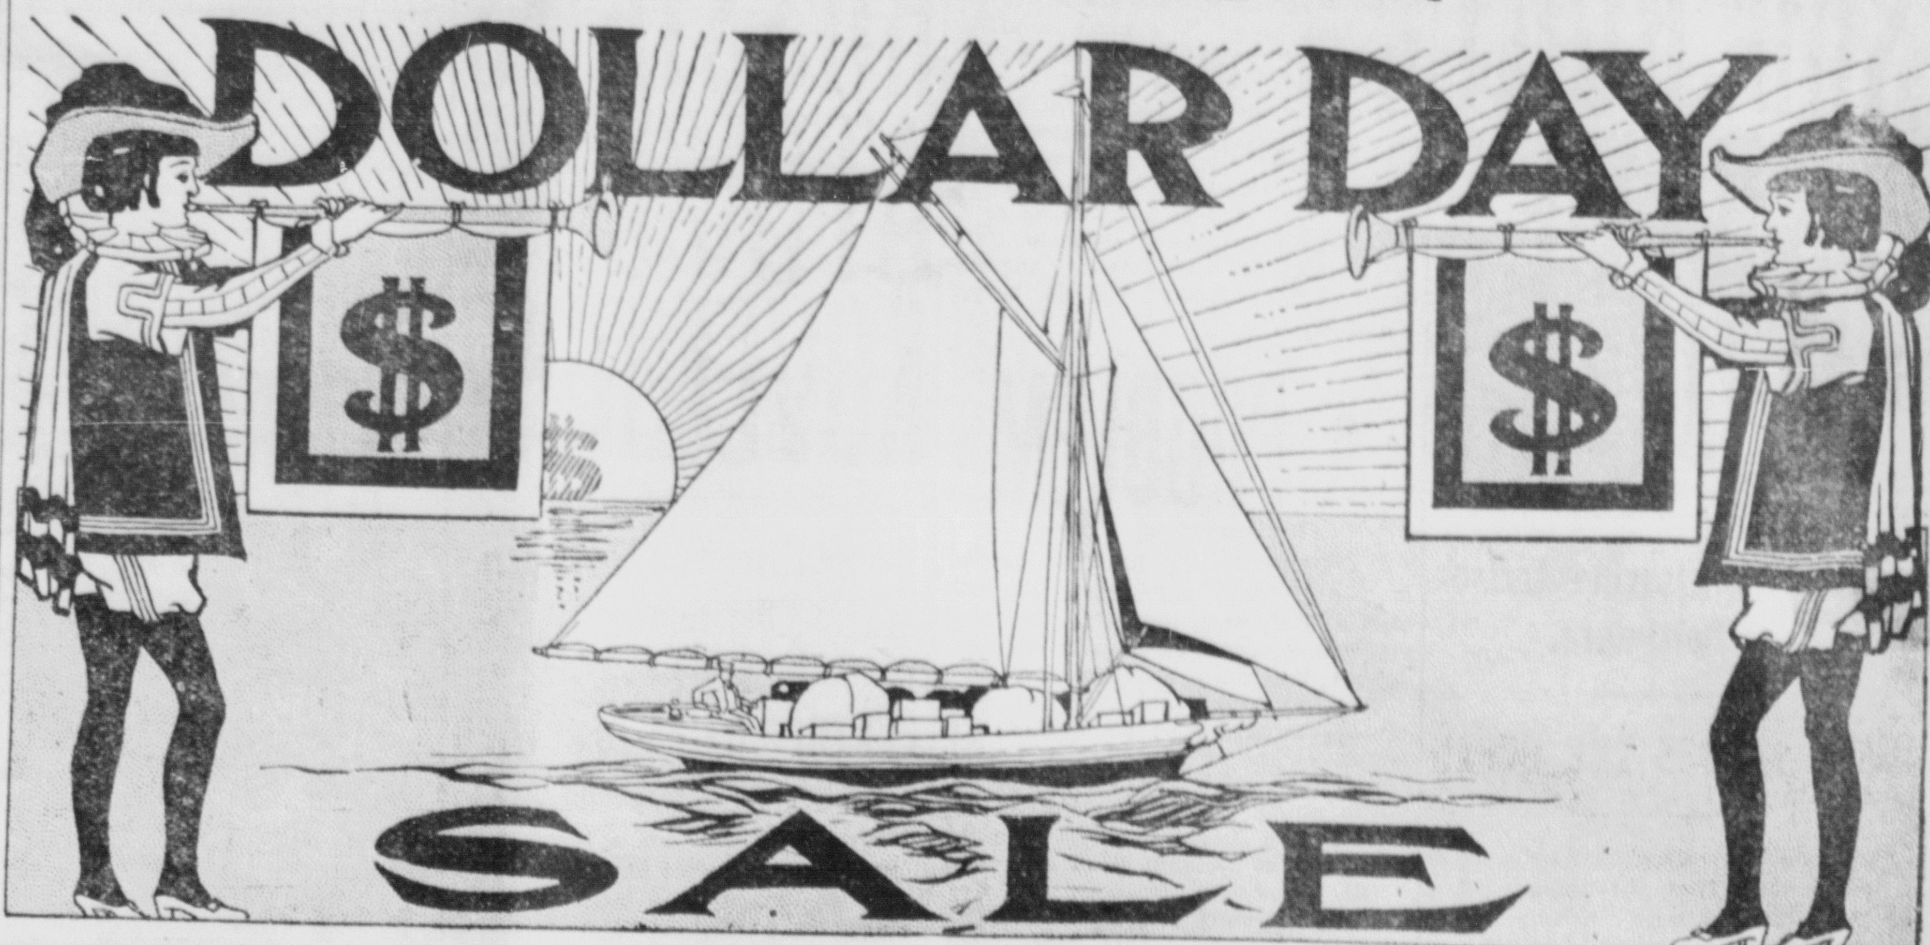

Mr. and Mrs. Wm. May entertained Sunday Mr. and Mrs. Chas. Clifton and children, Dr. J. B. May of New Holland, Mrs. James May and baby, of Cleveland.

Misses Edna and Helen Hamm, Mr. Jos. Hamm and Mr. M. L. Posey motored to Columbus Sunday spending the day the guests of Mr. Fred Hamm.

Mr. Robert Howat, after being confined to his home the past three weeks, was able to resume his duties at his desk in the Fayette County Bank, Monday morning.

Miss Hazel Michael, Miss Lillie Carson, Miss Florence Michael and Messrs. Lyman Unger and Bentley Teeters were Sunday guests of Mr. Teeters' parents in Dayton.

Mr. and Mrs. Arthur Harrop are in from Albion, Mich., visiting their parents, Mr. and Mrs. R. H. Harrop of this city, and Mr. and Mrs. L. H. Carman of Seldon.

Adjutant General Benson W. Hough, or Lieutenant Col. Hough of the Fourth Regiment, Ohio Infantry, is very much in the public eye at the present time, having resigned as Adjutant General to assume his old position with the Fourth.

Col. Hough tendered his resignation as Adjutant General, and enlisted with his old company as a private. He was roundly "kidded" by the other members of the company who had considerable sport at his expense. However his old position was vacant, and an election was called and he was chosen Lieutenant Colonel of the Fourth Regiment and assumed command at once.

Although he resigned the office, Col. Hough is still the acting Adjutant General.

In the accompanying picture Col. Hough is shown riding Mt. Sterling Chief, owned by Homer Hutson, of Maplehurst Farm, Paint township.

# SUB BOAT ARRIVES IN PORT

German Submarine Arrives at Baltimore.

## CAME ACROSS THE OCEAN

Commanded by Captain Kairig, Who Announces That the Voyage Was Uneventful—Eluded Enemy Warships in Mid-ocean and Near the Virginia Coast—Trip Made in Fourteen Days—Arrival of the Boat.

Baltimore, July 10.—After voyaging safely across the Atlantic, passing the allied blockading squadron and eluding enemy cruisers watching for her off the American coast, the first submarine merchantman, the German underwater liner Deutschland, anchored below Baltimore Sunday night. The vessel carries mail and a cargo of 750 tons of costly chemicals and dyestuffs and is to carry back home a similar amount of nickel and crude rubber, sorely needed by the German army.

Fifteen days out from Bremerhaven to Baltimore, the submarine reached safety between the Virginia Capes at 1:45 o'clock Sunday morning, passing in on the surface.

The Deutschland was met by Captain Fred Cooke of the Virginia Pilots' association, who was bringing the submarine to this port when she was met by the tug Timmins, on board of which was Captain Hinsch. Captain Cooke then left the undersea craft, which was ordered by Captain Hinsch to Baltimore.

Captain Cooke stated that the undersea craft is more than 300 feet long, 30 feet wide and was drawing 17 feet of water when she entered the Virginia Capes. The submersible is propelled by two Diesel engines of 600 horsepower and makes about 14 knots an hour. She is larger than the average freight steamer and makes a speed of about three knots in excess of the speed attained by the average freight boat.

### The Trip Across the Sea.

The Deutschland is commanded by Captain Kairig and manned by a crew of 29 Germans. She left the German port on June 23, according to the story Captain Kairig told Captain Cooke. Captain Kairig, according to Captain Cooke, who was shown through the submersible, told him that the trip across the Atlantic was uneventful. The captain of the submarine said that he passed several British merchant ships and one British battleship.

The Deutschland is unarmed. Her master and German representatives in this country probably will contend that her status is that of an unarmed merchant ship.

Captain Kairig stated that he anticipated no trouble in eluding the English cruisers expected off the capes any minute for the return voyage. The plans of the master of the submersible are unknown at this time. He, however, is expected to leave for Germany within the next week or ten days.

British warships were scattered all along the Atlantic coast and they were ordered to capture or sink this defiant craft at all hazards. Twenty miles, ten miles and fifty miles off the Virginia Capes French and British warships were searching by day and by night for this strange underwater visitor. It was on Thursday and Friday that the British ships became almost frantic in their efforts to capture or destroy the submarine. They ran in all directions. Incoming steamers reports sighting them going north, south, east and west off the Virginia Capes.

### Captain Kairig's Story.

Captain Kairig and his officers always on watch for the enemy had sighted a warship when 100 miles off the capes. They sighted another on their starboard bow, bearing towards them, but it was Friday afternoon and Captain Kairig decided to send his craft beneath the waters of the Atlantic and to sail in the direction from which the warship had come. He sailed south for perhaps 100 miles, and when the submarine again came to the surface it was dark. He was then in the vicinity of Hatteras. There were no warships in sight and he set a straight course for the Virginia Capes. Captain Kairig declared his vessel was not under water more than two hours on Saturday. He said:

"I consider our voyage uneventful. We had very little trouble. Once we had trouble without underwater lights and air tanks, but they delayed us only a few hours. We were over 800 miles off the short course, which made us behind the time we could make under more favorable conditions."

"We ran into rough weather almost every day for a week. We were forced to submerge on these occasions to escape high seas. It is more comfortable under water when the sea is rough. We could not stand on our feet on the surface, and the cargo began to shift. When we passed near the Diamond Shoal lights we were partly submerged, the weather was so rough. Our ship is as good as new. We made the voyage in good time considering the difficulties we encountered, and probably will do better going back."

## A PROBLEM

(By American Press)

Washington, July 10.—The arrival of the German submarine Deutschland at Baltimore brings to the United States government an unprecedented diplomatic problem.

The indications are that this government will not be stampeded into action either by the novelty of the submarine's feat in crossing the Atlantic or by the contentions of the German and British government as to the status of the ship in an American port.

If the Deutschland entered Baltimore as a warship this government will, it is explained, at once apply the international regulations which govern the sojourn of a belligerent vessel in a neutral port. The Deutschland will be given twenty-four hours to leave, in addition to such time as is necessary for replenishing her fuel supply and making necessary repairs.

If the Deutschland on the other hand enters port as a privately owned merchant cargo ship, bent on a peaceful commercial or diplomatic mission, the United States will recognize the validity of the German claim to immunity until facts are brought forward to disprove it.

## WILL APPEAL TO BUSINESS MEN

Aid Wanted For the Families of Needy Guardsmen.

Columbus, July 10.—Commanders of regiments of the Ohio national guard will make appeals this week to organizations of business men in cities and villages throughout the state whence their troops were recruited to obtain financial aid to be used as relief funds for families of needy guardsmen. Unless such aid is forthcoming, many companies this week will suffer heavy losses of men through the order issued last week by the war department, that men whose families need them at home for financial support may be released from service on the discretion of the commanding officer.

The appeals will be made following the lead taken by the business men's organization of Dayton, which has announced that it is ready to raise a \$200,000 relief fund for the dependents of needy guardsmen of the Third regiment.

The first battalion of field artillery, of which Major H. M. Bush of Columbus is commander, received a \$100,000 balloon and 4,000 feet of cable from the Goodyear Rubber company of Akron. It requires \$400 worth of gas to fill the balloon, for which a special gas plant will be furnished. The balloon will be operated by Sergeant Ralph H. Upson of Akron, who won the international balloon race several years ago. The battalion also has received 450 rounds of shrapnel. It now has four tons of ammunitions of various sorts.

Officers of this battalion spent the day in making up the roll for federal call. After passing all the men through a stiff preparatory medical examination a list of men who probably will be unfit for service will be submitted to the federal medical examiners to facilitate their work. No officers are included in the list.

## HE NEEDS IT

(By American Press)

Eagle River, Wis., July 10.—President Wilson is to spend two or three weeks in the heart of northern Wisconsin forests, incognito, seeking rest and recreation, before starting his campaign for re-election. This is the word that has come to the summer resort region, but it is not certain as yet where the president will go, or how he will arrange to hide from visitors and curiosity seekers. It is said, however, that he will go to some one of the numerous private summer homes scattered throughout the north woods, all at a distance from any settlement, where he can be absolutely alone. The president's vacation is said here to be due in August.

## FURTHER GAINS RECORDED

Berlin, Admitting Loss of Hardcourt, Believes It Has the Situation On the Somme Front Now Well In Hand and That Nothing Can Interfere With the Progress of the Verdun Campaign.

London, July 10.—Fighting between the Ancre and Somme rivers was less violent than on the last few days, the British war office reports.

A desperate German counter attack was delivered against the sector held by the New Zealanders. The Teutons succeeded in penetrating the lines, but were ejected within a half hour. There is a strengthening in the German artillery bombardment. This is taken here as forecasting a German counter offensive on a large scale.

The lists of casualties among British officers issued in the past four days, apparently composed almost altogether of losses suffered in the past week's advance, gives a total of 94 killed, 504 wounded and 30 missing.

A notable advance was made by the French toward the fortress of Peronne. On a front of two and one-half miles the French penetrated the Teuton lines from one to two kilometers and took the village of Blaches.

The news shows little change in the relative positions on the western front. Berlin admits the loss of Hardcourt. It is believed in Berlin that the Sixth army and reserves have the situation well in hand on the Somme front and that nothing can interfere with the progress of the Verdun campaign.

Dispatches from Petrograd report the Russian forces going from success to success.

Not only has General Letchitzky, in the south, occupied the railroad junction at Delatyn, west of Kolomea, thus cutting off General Von Bothmer from his supply base, but General Brusiloff, in the north, is making surprising advances on both sides of the Kovel railway toward the Stokhod river.

The Russian communication reports the enemy force in this region retreating in great disorder and adds that the Russians have occupied Hulviche, which is about twenty-four miles to the east of Kovel, while apparently the Russians are already across the Stokhod river somewhere in the region of Janovka.

German possession of Baranovitch and Kovel are absolutely essential if she is to retain her hold over the invaded parts of Poland and Lithuania, but it is considered likely that it is only a matter of a few days before the Russians will be in possession of Kovel, which would compel Von Linsingen's retirement from the Lutsk salient.

German dispatches express anxiety over the Russian advance.

## WILL TELL HIM

(By American Press)

Bridgehampton, L. I., July 10.—The notification ceremonies at which Charles E. Hughes in his speech of acceptance will define in detail his attitude towards national issues will take place in New York July 31, according to present indications. It is expected that almost immediately afterward the nominee will begin his trip to the Pacific coast, returning in time to deliver several speeches in Maine before the close of the state campaign early in September. It is probable that Colonel Roosevelt and William H. Taft also will be asked to speak in Maine, and it is more than possible that on at least one occasion the two former presidents will appear on the same platform with Mr. Hughes.

## ANOTHER ONE COMING

(By American Press)

Baltimore, July 10.—Another cargo carrying German submarine is now on the high seas and making for the United States at steady pace of 12 knots an hour. This statement was made by a German-American business man of Baltimore. It will not come to Norfolk or Baltimore, he added. The captain will try to slip into New York harbor or to make Philadelphia.

## FARMER KILLED

# VILLA IS DIRECTING REBELLION

Outlaw Chief at Head of New Rebellion.

NEAR CHIHUAHUA BORDER

Force of Carranzistas, Who Marched Against the Rebels That Slaughtered General Ramos' Command, Believed to Have Been Defeated. Loyalty of Arrieta Brothers, Who Joined Carranza Forces, Questioned.

El Paso, Tex., July 10.—Reports are reaching here daily to the effect that General Villa is in the vicinity of the Florida river, not far from the Chihuahua-Durango border; that he is directing the movements of the army of General Calixto Contreras, and that he is holding another considerable body of men in reserve awaiting the moment when he shall have "sufficiently recovered from his wounds and rheumatism" to stand the hard rides and rapid movements of campaigning.

It looks as though Villa's forces under the personal leadership of Contreras have won another victory over the troops of the de facto government. General Domingo Arrieta, commanding the 2,000 Carranzista troops sent out by General Trevino to disperse the Villistas who had slaughtered the command of General Ramos and later looted and then abandoned the town of Jimenez, reported by wire to General Trevino that he had encountered the rebels at Las Nievas, southwest of Jimenez, and that he was then engaging the Villistas. Since then no word had been received from Arrieta by General Trevino at Chihuahua City.

A suspicion was manifest that the troops of General Arrieta might have revolted when they came in touch with the Villistas. All the Arrieta troops, together with their commander, formerly served under Villa. Some months ago the Arrietas came into disfavor with the Carranza government, which had well defined suspicion of the loyalty of the Durango commander.

Every move in the new rebellion bears the imprint of Villa's own strategy, according to American army officers on the border. The bold attack on General Ramos and his command, the ferocity with which the Villistas fought, the promptitude with which they attacked and looted Jimenez and then slipped away, were typical Villa moves, it is asserted.

## Monkeys Expected to Help in Saving Babies in Fight on Infantile Paralysis

ROCKEFELLER INSTITUTE - MONKEY MAY SAVE CHILD

Thoroughly alarmed by the spread of infantile paralysis among the children of New York city and the peril of its attacking the children of other communities (others have already been affected) the federal authorities offered to the city the aid of the federal health service. Dr. Haven Emerson, city health commissioner, asked the acting surgeon general to obtain, if possible, the release for shipment to the United States of 100 monkeys in the Philippines. In its efforts to solve the all important problem of

how infantile paralysis is "carried" the department of health and co-operating research agencies are seriously embarrassed by a shortage of monkeys. The monkey is the only animal upon which tests to identify the mediums of communication of the disease can be made. The Rockefeller institute, however, which was established by John D. Rockefeller to fight infantile paralysis after his young grandson died of the disease, has 100 monkeys collected in the Philippines ready for shipment. Because of disease among the animals on the islands

there has been an embargo on their exportation. This is why the monkeys have not come to New York. If the efforts of the public health service are successful in having the embargo raised, so far as the monkeys are concerned, although the animals will not arrive for some weeks, Dr. Emerson believes that the scientists of the federal government, of the Rockefeller institute and of other research bodies will be able to make great headway in solving the problem of who and what are the most dangerous "carriers" of infantile paralysis.

## HERE IT IS AT LAST

By Associated Press Dispatch.  
Columbus, O., July 10.—Did the word "news," referring to the commodity, if it may be termed a commodity,—handled by a newspaper office, originate from the modifier "new?"

A Columbus high school student says no. He is of the belief the term originated from the design formerly carried prominently on the first page of newspapers in which the cardinal points of the compass were indicated—"N-E-W-S" which was used to indicate the paper contained accounts of events from every direction.

London, July 10.—Edwin Samuel Montagu, financial secretary of the treasury, was appointed minister of munitions, succeeding David Lloyd-George.

## HAS BEEN SERVANT IN ONE PLACE FIFTY-TWO YEARS

Tips Given Negro at Alabama College Would Make a Small Fortune.

Birmingham, Ala.—Fifty-two years a servant in one place is the record of Uncle Abe McClintey, who has waited on the dining table of the Judson Female college at Marion, in this state, ever since 1864. He is personally known and affectionately regarded by thousands of women all over the country who have attended that institution since the civil war. The alumnae of Judson recently donated enough to restore his home, which was destroyed by fire.

Uncle Abe is an old negro of war times. His record for the same job at the college is said to be the longest in the country. Nearly everybody in Alabama and the south knows him, and his tips during his long service would make a small fortune.

In Marion there are almost twenty antebellum negroes whose attachment and service of early life bound them until death in the esteem of the white race. None are better known and more highly esteemed than Uncle Abe. He is still on the job, which he says he will hold down until he dies.

When Dr. O. L. Shivers was called by the trustees to Judson to take charge of the boarding department in an effort to keep the institution going when Alabama was prostrate from war he carried Uncle Abe with him, and the old negro has served through many administrations. At commencement time, when many seniors and alumnae return for the ceremonies, a fat purse is always made up for Uncle Abe.

## EVERY EFFORT TO STOP DISEASE

Civilians Assist In Fight Against Infantile Paralysis.

New York, July 10.—The board of health reported that during the past twenty-four hours eighty-eight new cases of infantile paralysis have been reported from the five boroughs of the city, Brooklyn leading with sixty-six. Now that the health department has arrived at a somewhat systematic method of handling the cases all are being sent to the Willard Parker hospital, in Manhattan, and this rule prevails no matter in what section of the city the cases are reported.

The department was assisted in its work by 21,000 civilian volunteers, members of the Home Defense league, an auxiliary of the police department. These assistants inaugurated their work by surveying dark alleys and vacant lots throughout the city. They not only aided the police, but also street cleaners and hundreds of physicians who are combatting the outbreak, under the auspices of the federal, state and municipal health officials. In Brooklyn members of the league reported several violations of the sanitary laws. In Manhattan 160 members of the league were taken around precincts on the lower East Side by half a dozen police captains. In nearly every instance persons approached by the police and the home defenders readily co-operated with them, and good work was accomplished in cleaning up dirt and filth and in covering garbage cans.

## NATIVE OF OHIO

(By American Press)

Chicago, July 10.—Judge Frank Baker of the appeal court died in a sanitarium in Hartland, Wis., of heart disease. He had been ill a year. The judge was a native of Ohio and was elected to the circuit bench in 1887; in 1904 he was assigned to the appellate court of the First district of Illinois.

# XENIA LOSES TO ATHLETICS

Big Series Between Washington, Wilmington, Hillsboro and Blanchester for Southern Ohio Laurels Has Been Arranged.

## HILLSBORO NEXT SUNDAY

Before a small crowd the Washington Athletics, at the local park, Sunday afternoon, beat the Xenia ball tossers by a score of ten to six in a game not particularly brilliant, but an ideally good game for fans to see. It was see-saw all the way through until the locals finally pulled away for good.

The Athletics made some long hits and finally in the 5th inning, by a fastid of hits, compelled the visiting hurler, Free, to abdicate the mound.

Snow, who began the game for the locals, was knocked out of the box in the first inning. Linson, who succeeded, twirled splendid base ball and only a cluster of bunched errors permitted the visitors to score off his delivery.

The local management announces that arrangements for a series of games between Washington and Wilmington and Blanchester for the amateur championship of southern

Ohio have been completed. Hillsboro will play here, next Sunday. The series will probably consist of five games with each club.

That every contest will be played for everything in sight goes without saying. The series is just what the fans have been aching for for sometime.

## REACH AGREEMENT IN GRAVEL CASE

The County Commissioners, Jefferson township trustees and Amy F. Shiplette reached an agreement in the matter of the condemnation of certain lands containing gravel, Monday afternoon.

The price agreed upon per yard of gravel was 33 1-3 cents. This price is somewhat higher than that paid in many instances, and is due to lack of excavating before gravel is available.

## WELFARE SOCIETY RECEIVES \$125.25

Mayor Oster has turned over to the Welfare Association the sum of \$125.25 representing the society's amount he obtained from the Metropolitan street shows in this city week before last.

The amount was a surprise to the Association, which is very grateful to Mayor Oster for his part in obtaining the fund.

## EIGHTH READY FOR THE FRONT

By Associated Press Dispatch. Camp Willis, Columbus, July 10.—Work of equipping the Eighth Regiment was resumed with vigor today, and by nightfall it was believed the regiment would be fully equipped in anticipation of orders to remove to the border to be issued either Tuesday or Wednesday, according to reports at camp.

Two cases of smallpox were discovered in Camp Willis, but care was taken to isolate the patients and to provide sanitary measures.

# MERRY BUNCH NOW IN CAMP AT COLUMBUS

By Associated Press Dispatch.

Camp Willis, Columbus, O., July 10.—"Beware the dog," this sign surmounted by a skull and crossed bones, evidently calculated to warn passersby of the danger of straying too near the place, may be seen in front of a diminutive tent at the end of company A street, second infantry. The company is from Findlay.

If you stoop so as to get a view of the interior, however, a dog proportionate in size to the tent, may be seen napping in the shelter of the canvass. Though weighing not more than five or six pounds, the dog, "Heller," is leashed by a rope strong enough to tow an automobile.

The boys of the company seem determined not to lose their mascot.

Concession men and refreshment stand proprietors overlooked a bonanza when they failed to establish a place of business at the extreme north end of the camp, two miles from the Fifth Avenue entrance, where the cavalryman, artillerymen and two companies of infantry, the Second and Third, are quartered. Just across the way from the camp is a farmhouse. After the owner of the place had granted permission for a hundred or more men to pump themselves drinks at the farm well, he decided he would experiment in capitalizing the men's appetites and thirsts.

While his wife prepared bona fide home made pies, cakes cookies and lemonade, the farmer constructed a rude stand in front of his home and, in a couple of hours, began business.

With a rush the hungry troopers swarmed about the stand and, in twenty minutes, everything but the proprietor, the pie plates and the stand itself had been devoured.

Now the farmer and his wife have a cook at work in their kitchen every day and two men assisting in waiting on trade to keep abreast of the rush.

The Duvall family, of Toledo, has the largest representation yet discovered at Camp Willis. Four sons of Mrs. Sophie Duvall are here with the troops, two with company H, of the Sixth regiment and the others in troop D, of the cavalry.

Samuel, aged 32, is duty sergeant and Henry, 30, is first sergeant of the infantry company, and the younger boys, Jette, aged 23, and Manuel, 21, are cavalrymen.

Brigade and headquarters mess is being served Brig. Gen. William V. McMaken and officers of his staff at a house a short distance east of the headquarters tents. The house is just at the edge of the camp grounds and has for several months been unoccupied.

Service plates and cups, of enamel ware, and steel "tools" as knives, forks and spoons are known in the service, are used by the officers.

Here is a representative noon day meal at officers' mess; baked ham, macaroni and tomatoes, potatoes, corn, coffee and tapioca pudding.

In the evenings, after drills, mess and camp duties are finished for the day and guards have been assigned for the night, the other men gather in little cliques back of company headquarters and sing. Here's the refrain of a song set to the familiar tune of "Tipperary" devised by a member of company E, Third regiment, of Hamilton:

"It's a hard thing to beat camp Willis

"It's a hard thing to do

"It's hard thing to beat Camp Willis

"Where the boys are all true blue

"We hope those mustering officers

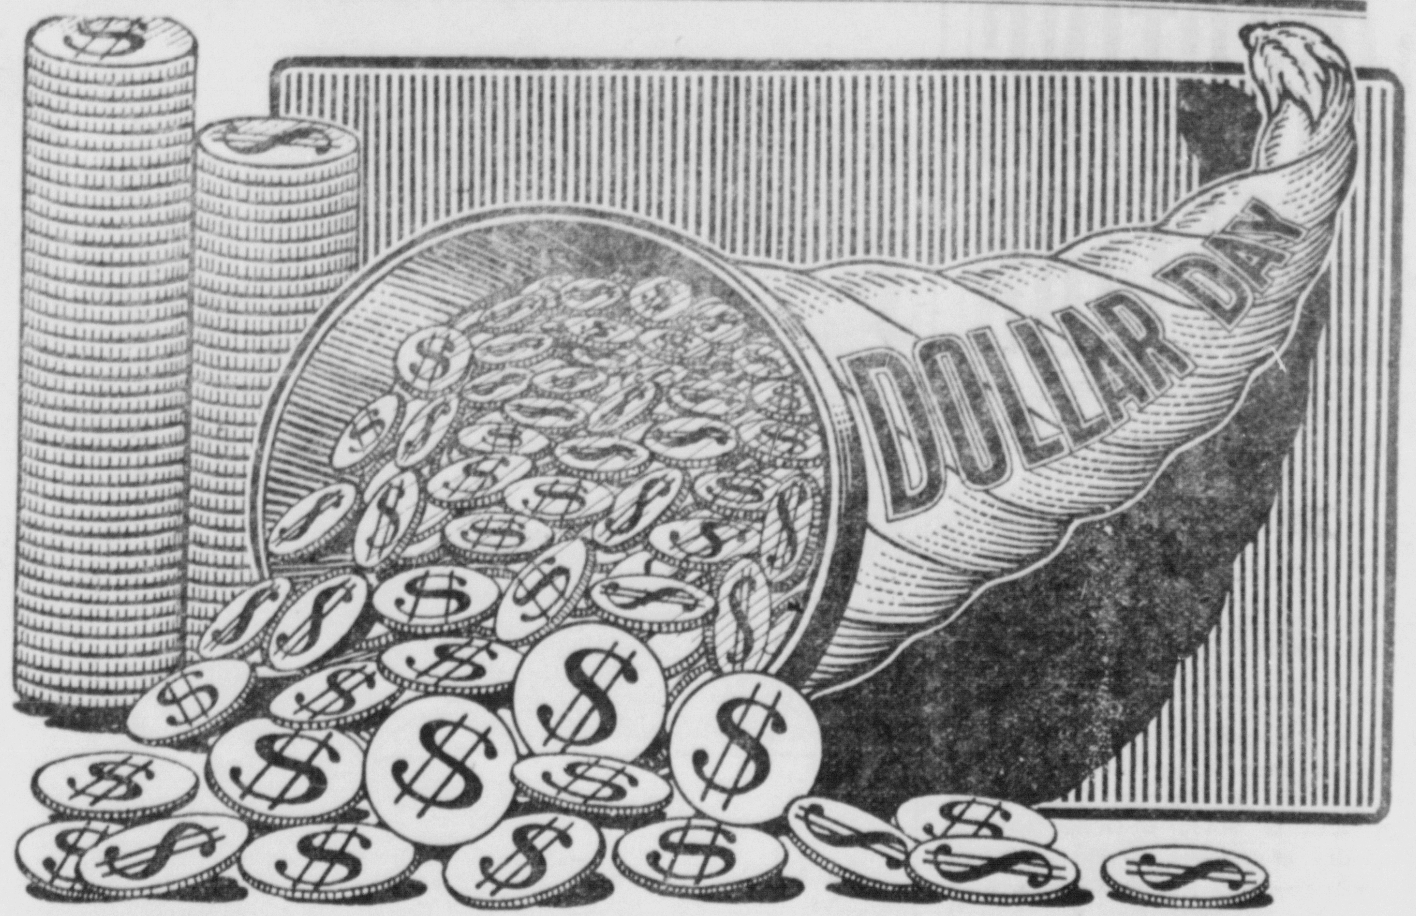

"Won't send us back home

"For we all want a chance at those old Mexicans

"They're not expecting us yet back home."

To keep men from other companies "tapping" their inviting water tank, in which someone had placed a cake of ice, men of the headquarters company of the Eighth regiment, from Bucyrus, placed on top of the tank a hive of bees which one of the men, during drill had found on the parade grounds. He had "hived" them in a small store-box and told his company mates the bees "won't bite." The idea was effective in keeping members of other commands away.
